

Dynamic Cables Limited Marks 37+ Years as a Trusted Leader in Wire and Cable Manufacturing

With ISO-certified facilities and CE-tested products, Dynamic Cables Limited continues to power India's infrastructure through quality, innovation, and global expansion.

Jaipur, Rajasthan Jun 22, 2025 ([Issuewire.com](https://www.issuewire.com)) - *Dynamic Cables Limited*, one of the most trusted names in India's electrical infrastructure sector, proudly celebrates over 37 years of delivering high-performance electrical wires and cables to industrial and power utility projects worldwide. Headquartered in Jaipur, the company continues to lead the market with a strong focus on quality, innovation, and process-driven manufacturing.

With three ISO-certified manufacturing and testing units (ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018), Dynamic Cables ensures that every product is manufactured under stringent quality control systems. Their guiding motto, *"Follow the Process, Quality Shall Follow,"* reflects their deep commitment to long-term excellence.

The company's comprehensive portfolio includes copper cables, aluminum conductors, armoured cable, AL 59 conductor, ACSR conductors, PVC power cables, aerial bunched cables, and multicore cables—serving a wide range of applications in power distribution, infrastructure, and turnkey projects.

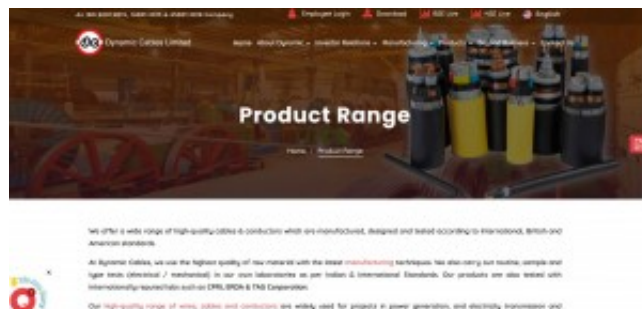

All products are CE-certified and type-tested by leading laboratories like CPRI, ERDA, and TAG

Corporation, further establishing their reputation as a dependable [electrical cable manufacturer](#). Their globally focused strategy, backed by innovation and manufacturing capacity, aims to achieve a ₹1500–2000 Cr. turnover in the near future.

Dynamic Cables also offers industry-specific solutions like **multicore cables** for control systems, ensuring safety, flexibility, and reliable performance across various installations.

“As we invest in sustainable technologies and smart manufacturing, our mission remains clear — to deliver not just cables, but long-lasting trust and value,” said a company spokesperson.
