

Fiybit: AI-Driven Innovation for the Next-Gen Intelligent Crypto Asset Platform

Financial Crimes Enforcement Network Department of the Treasury

MSB Registration Status Information

Date: 06/18/2025

Information contained on this transcript has been provided to FinCEN by the money services business registrant. FinCEN does not recommend, approve, or endorse any business that registers as a money services business. Any such claim and similar claims are false and may be part of a scam or attempt to deceive consumers.

The MSB Registrant Search Web page, which is updated on a weekly basis, contains entities that have registered as Money Services Businesses (MSBs) pursuant to the Bank Secrecy Act (BSA) regulations at 31 CFR 1022.380(a)-(f), administered by the Financial Crimes Enforcement Network (FinCEN).

Information contained on this site has been provided by the MSB registrant. FinCEN does not verify information submitted by the MSB. Information provided on this site reflects only what was provided directly to FinCEN. If an error or incomplete information is detected on this site, the registrant should follow the appropriate instructions for correcting a Registration of Money Services Business (RMSB) form.

Number of Branches: 0

Authorized Signature Date: 06/13/2025

Received Date: 06/13/2025

Alabaster, Alabama Jun 20, 2025 ([IssueWire.com](https://www.issuewire.com)) - As AI and blockchain technologies converge at an accelerating pace, the crypto financial sector is entering a new era of intelligence, compliance, and globalization. Fiybit, a US-registered digital fintech platform serving the global market, is redefining the logic of crypto investing through AI strategy trading, quantitative modeling, and social copy-trading—building a smarter, safer, and more trustworthy global financial ecosystem.

Fiybit stands out with a dual-engine model combining deep tech infrastructure and product-level innovation. The platform is built on a microservice and modular architecture, offering scalability and system redundancy. Its proprietary AI strategy engine integrates multiple models including XGBoost and LSTM, enabling real-time modeling and forecasting of market data, on-chain activity, and social sentiment to deliver automated and personalized trading strategies.

Fiybit has also developed a global social copy-trading network that links professional traders with retail users. Ordinary investors can replicate expert strategies with one click, gaining access to institutional-level returns. Professional traders, in turn, are incentivized through a revenue-sharing mechanism, forming a mutually beneficial value loop.

From a compliance perspective, Fiybit operates under the principle of "compliance first, security as foundation." The platform is officially registered as a Money Services Business (MSB) with FinCEN in the US, and is actively pursuing additional crypto regulatory licenses including the EU's MiCA, Singapore's MAS, and the UAE's VARA, aligning fully with global regulatory frameworks.

Beyond trading, Fiybit offers multi-chain wallet management, ETF portfolio tools, AI investment advisory, cross-chain interoperability, and behavioral analytics—empowering users to manage and optimize their digital assets across every investment stage.

Looking ahead, Fiybit plans to continue expanding globally, issue its native governance token, implement decentralized DAO governance, and strengthen on-chain settlement and custody capabilities. The platform will also explore integration with DeFi, NFT, and GameFi ecosystems. More than just a trading hub, Fiybit aims to be the driving engine behind the evolution of digital assets and intelligent investing.
