

Freedom & Glory Brings History to Life — Now on Kickstarter

Blending rich historical scenarios with deep player choices, *Freedom & Glory* invites players to captain their own ship through key moments in world history

Champagne-sur-Oise, Ile-de-France Jun 13, 2025 ([Issuewire.com](http://www.Issuewire.com)) - *Freedom & Glory* Brings History to Life — Now on Kickstarter

What if history wasn't just something you studied, but something you *lived*? That's the bold idea behind *Freedom & Glory – L'Histoire devient une aventure*, a new narrative-driven video game from indie studio **Pillow Interactive**, now crowdfunding on [Kickstarter](https://www.kickstarter.com).

Blending rich historical scenarios with deep player choices, *Freedom & Glory* invites players to captain their own ship through key moments in world history. With just **\$68 pledged of its \$9,133 goal** and **29 days to go**, the campaign is looking for early supporters to help shape this ambitious adventure into reality.

History Meets Adventure

Rather than following a textbook script, *Freedom & Glory* presents history as a dynamic, branching experience. Players interact with historical figures, navigate difficult moral choices, and shape the fate of their ship and crew, all within meticulously researched settings. It's designed for students, educators, and history lovers who want more than dry facts.

Developed with Heart

Created by a small Paris-based team, Pillow Interactive aims to prove that indie games can be powerful educational tools. This isn't a passive mobile experience, it's a hands-on, story-rich journey through time. The game balances entertainment with learning, offering players a meaningful alternative to traditional edutainment.

Why Support Now?

- Help fund a fresh take on interactive history.
- Gain early access to development updates and stretch goals.
- Become part of a growing community shaping the game's world and narrative.

Only **2 backers have joined so far**, making this the perfect time for early supporters to get involved and influence the game's future.
