

Hackersvella : Elite Cyber Academy Is Now Open to the Brave

A 1-Year Intensive Hacker Training Program Designed for the Top 15 Talents – Not for Everyone. Get Trained, Get Hired, Get Respected in the Cybersecurity World

Bengaluru, Karnataka Jun 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - **Hackersvella**, India's first hackified and gamified cybersecurity training ecosystem, announces its latest admission drive for its elite **1-Year Cybersecurity Mastery Program**. Designed for only 15 talented students, Hackersvella is not just a course—it's a transformation journey built for real-world digital warriors.

About Hackersvella (What is it?)

Founded by top ethical hackers and cybersecurity mentors from **Spidervella Technologies**, Hackersvella is a deeply **practical, gamified, and intelligence-based program** designed to create world-class cyber professionals. With a training model far beyond traditional degrees or certifications, the program compresses 5 years of engineering + hacking certifications into 1 intense year.

Students don't just learn – they hack, develop, automate, analyze, break, and build.

What Makes It Unique? (Your key features)

- **Only 15 students selected per batch** – an elite, mentor-focused approach
- **100% practical labs, tools, and hacking devices** (Raspberry Pi, USB payloads, etc.)
- **Gamified Learning Dashboard** – challenges, battles, rewards

- **Global-level training** – comparable to OSCP, SANS, and more
- **Job-ready, project-rich portfolio** – including bug bounties, forensics, red teaming, and real-world exploits

"Hackersvella isn't just a course—it's a battlefield where we train the next generation of cyber warriors. Our goal is not to produce followers, but leaders who can build, break, and protect the digital world," <https://www.spidervella.com>
