

Haryana City Gas Launches ‘Safe Summer with PNG’ Campaign Across Residential Areas

Aiming to Educate Families on PNG Safety, Leak Prevention & Emergency Preparedness

Gurgaon, Haryana Jul 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - Haryana City Gas Distribution Limited (HCG), one of North India’s leading natural gas providers, has announced the launch of its latest initiative — **‘Safe Summer with PNG’**, a public awareness campaign dedicated to promoting safety and best practices among domestic PNG (Piped Natural Gas) users.

With rising summer temperatures and increased gas usage in kitchens, this campaign aims to educate households about crucial safety tips like checking gas leaks, understanding emergency shut-off procedures, and the importance of proper ventilation.

“We are not just gas suppliers — we are safety partners,” said an HCG spokesperson. “Our goal is to ensure every family using PNG understands the do’s and don’ts of gas usage and feels empowered to act wisely during emergencies.”

The campaign will be executed through:

- **Home visits & free safety check-ups**
- **Digital awareness posts on social media**
- **Informative flyers & local community sessions**

[Haryana City Gas](#) urges residents across Gurugram, Rewari, Sonipat, and nearby areas to stay alert and informed. The campaign runs throughout July 2025 and will also include a 24/7 helpline for safety concerns.
