Las Vegas, Nevada Jun 17, 2025 ([Issuewire.com](http://www.Issuewire.com)) - The High Risk Pregnancy Center (HRPC), a Hera Women's Health Center of Excellence, is pleased to announce the addition of Tracey Gaebe Schulz, CGC, to its expert team in Las Vegas. With more than two decades of experience in genetic

counseling, Tracey brings a compassionate, patient-centered approach to supporting women and families navigating complex pregnancy challenges. Her addition to the HRPC team strengthens the practice's mission of providing state-of-the-art, individualized care to expectant mothers across Nevada.

As a leader in [maternal-fetal medicine](#), HRPC remains committed to offering comprehensive, multidisciplinary services that empower patients with knowledge, clarity, and support throughout their pregnancy journey. With Tracey's arrival, the center expands its capability to provide advanced genetic counseling tailored to each patient's personal and family health history.

Pregnancy can be an emotionally and physically complex time, particularly for women facing elevated risks due to genetic conditions. Many families encounter uncertainty when navigating the possibility of inherited health concerns. Without access to clear, empathetic guidance, these moments can become overwhelming and isolating.

As advancements in prenatal testing continue to evolve, the need for experienced professionals who can help interpret results, explain risks, and guide patients through difficult decisions has never been more essential. HRPC recognizes the growing demand for personalized, accessible genetic counseling and is committed to meeting that need with the highest standard of care.

"We are thrilled to welcome Tracey Gaebe Schulz to the High Risk Pregnancy Center," said Dr. Brian K. Iriye, Medical Director of the High Risk Pregnancy Center. "Tracey's depth of expertise, paired with her compassionate approach, aligns perfectly with our commitment to empowering patients through education and support. Her presence enhances our ability to provide comprehensive care, particularly in high-risk situations where genetic factors play a critical role."

Tracey Gaebe Schulz, CGC, brings a unique blend of scientific knowledge and personal insight to every counseling session. As a board-certified genetic counselor, she works closely with patients to evaluate their family medical histories, interpret genetic test results, and develop informed plans for prenatal and preconception care.

Tracey's approach is rooted in active listening and empathy, ensuring that each patient feels supported and empowered throughout their decision-making process. She also emphasizes the broader implications of genetic information, including how it may impact family members and future generations.

Her arrival enhances HRPC's ability to serve as a trusted resource for individuals and couples preparing for or navigating pregnancy with known or suspected genetic risks. With Tracey on board, HRPC now offers expanded support for those considering genetic testing, those seeking clarity about inherited conditions, and those coping with a diagnosis during pregnancy.

For families in Las Vegas and the surrounding region, access to high-quality, specialized genetic counseling can significantly influence pregnancy outcomes and emotional well-being. Tracey's addition reflects HRPC's ongoing investment in delivering personalized, leading-edge care to women across Nevada.

Beyond the local community, HRPC's expansion of genetic counseling services sets a benchmark for integrated maternal-fetal medicine practices nationwide. The combination of cutting-edge technology and compassionate support exemplifies how modern healthcare should be practiced—patient-focused, collaborative, and proactive.

Patients and healthcare providers in the Las Vegas area are encouraged to connect with the [High Risk](#)

[Pregnancy](#) Center to learn more about its expanded genetic counseling services. Appointments with Tracey Gaebe Schulz, CGC, can be scheduled by calling 702-382-3200 or through the center's easy-to-use online form.

Whether you're planning a pregnancy or seeking support during one, HRPC is here to guide you with knowledge, care, and confidence.

About High Risk Pregnancy Center
