

HJB Miner Launches Free Mining: Bitcoin, Dogecoin and Litecoin

HJB Miner launches revolutionary mobile mining app: BTC, LTC and DOGE mining with zero threshold

Los Angeles, California Jun 7, 2025 ([issuewire.com](https://www.issuewire.com)) - HJB Miner, the leading cloud mining platform in the UK, recently released a groundbreaking mobile application that condenses the mining experience of mainstream cryptocurrencies such as Bitcoin, Litecoin and Dogecoin to smartphones. This technology company, founded in 2017 and holding a formal operating qualification in the UK, is promoting the democratization of cryptocurrency through the concept of "mining for all".

🔗New Era of Mobile Mining🔗

This innovative application has completely changed the traditional mining model. No matter where users are - on their commute, taking a break in a cafe or between work, they can use an intuitive interactive interface to:

- Real-time monitoring of multi-currency mining progress
- Intelligent adjustment of computing power configuration
- View minute-level income updates
- One-click asset withdrawal

🔗Five core advantages🔗

Military-grade security protection

Using McAfee® triple encryption protocol and Cloudflare® firewall technology to build a bank-level asset protection system

New user incentive plan

New users will receive \$100 starting capital upon registration, and can receive \$1 reward for continuous login every day, effectively lowering the entry threshold.

Perpetual operation guarantee

The platform maintains 100% online rate, with 24-hour multilingual technical support to ensure uninterrupted mining process.

Download the APP and complete the email registration

Get the newbie welfare package - free \$100 investment capital, free \$1 for daily login

Select the appropriate smart contract

Start automatic income accumulation

Green computing power revolution

Relying on clean energy data centers and AI computing power scheduling algorithms, achieve the environmental protection goal of 42% carbon emission reduction per T computing power.

[Market prospects and vision]

HJB Miner Chief Technology Officer said at the press conference: "When ARK Invest predicted that Bitcoin would break through the \$150,000 mark, we believed that ordinary investors should share the industry dividends. Through mobile mining, users do not need to understand complex technical parameters or purchase expensive equipment, and truly realize 'getting rich at your fingertips'."

Currently, the platform has served more than 5 million users in 180 countries around the world, and the latest mobile application supports iOS/Android dual platform downloads. Visit the official website <https://hjbminer.com> or major app stores to start a 3-minute quick mining journey.
