

Introducing DVC Title Alert: DVC Title and Identity Protection Backed by \$1 Million in Restoration Support by AIG

Orlando, Florida Jun 4, 2025 ([Issuewire.com](https://www.issuewire.com)) - In an era where identity theft and title fraud are on the rise, timeshare and Disney Vacation Club (DVC) owners now have a groundbreaking solution to protect their most valuable investments. **DVC Title Alert**, the first and only identity and title protection service specifically designed for DVC members, is officially live. This innovative program is backed by **\$1 million in restoration support provided by AIG**, ensuring unparalleled peace of mind for members.

The launch of <https://DVCTitleAlert.com> marks a new chapter in safeguarding DVC members' property and personal information. With the increasing sophistication of cybercriminals and the growing risks of title fraud, this program provides a robust layer of security for those who have invested in Disney Vacation Club properties.

Why DVC Owners Need Title Protection

DVC members face unique challenges when it comes to protecting their property and identity. Title fraud, where criminals forge ownership documents or manipulate public records, can target timeshare owners and cause financial and legal chaos. As a result, DVC owners are increasingly vulnerable to unauthorized transfers, fraudulent resales, and identity theft targeting their personal information tied to ownership records.

DVC Title Alert was created to address these concerns directly. By combining cutting-edge monitoring technology with comprehensive restoration support, this program provides a proactive solution to protect DVC members' ownership rights and personal identity.

How DVC Title Alert Works

The **DVC Title Alert program** offers a range of features designed to ensure that members are always protected:

- **24/7 Monitoring of Ownership Records:** The program constantly monitors public records for any unauthorized changes to a member's DVC title. If suspicious activity is detected, members receive an immediate alert to take action.
- **Identity Theft Protection:** Beyond title fraud, DVC Title Alert provides comprehensive protection against identity theft, ensuring that members' personal and financial information remains secure.
- **\$1 Million Restoration Support Backed by AIG:** In the event of identity theft or title fraud, members are covered by up to \$1 million in restoration support through AIG. This coverage ensures that financial losses, legal fees, and other expenses are handled, allowing members to recover quickly and without added stress.
- **Expert Assistance for Fraud Resolution:** The program includes access to a team of specialists who work closely with members to resolve issues, restore ownership, and secure personal information.

A Partnership Built on Trust and Security

The partnership with **AIG**, a global leader in insurance and financial services, underscores the credibility and reliability of DVC Title Alert. AIG's \$1 million restoration support ensures that members are not only protected but also supported throughout the recovery process if an incident occurs.

"We are thrilled to launch **DVC Title Alert** as the first and only program of its kind for Disney Vacation Club owners," said Matthew Sheets, Founder. "Our mission is to provide DVC members with the tools and resources they need to protect their investments and identities. Backed by AIG's \$1 million restoration support, our program offers the highest level of security and peace of mind available today."

The Importance of Proactive Protection

According to industry reports, title fraud and identity theft continue to grow at alarming rates, with billions of dollars lost annually to these crimes. DVC Title Alert empowers members to take a proactive

approach in safeguarding their assets, providing real-time alerts and expert support to mitigate risks before they become major issues.

The program not only protects ownership and identity but also preserves the magical experiences that families cherish through their DVC memberships.

How to Get Started

DVC members can enroll in the program by visiting the official website, DVCTitleAlert.com. The site offers a user-friendly interface where members can learn more about the program's features, benefits, and pricing. Enrollment is quick and straightforward, ensuring that members can start protecting their investments immediately.

For a limited time, new members can take advantage of exclusive introductory offers by signing up today.
