

Kash Kitchen Opens Applications for LA Chefs with \$597 Subsidy Offer Before June 30, 2026 Deadline

Los Angeles chefs can now apply for MEHKO approval and claim a \$597 subsidy using Kash Kitchen's chef tools and training before the June 30, 2026 deadline.

Los Angeles, California Jun 9, 2025 ([Issuewire.com](https://www.issuewire.com)) - Kash Kitchen, a California-approved Internet Food Service Intermediary (IFSI), is now accepting applications from **home chefs in Los Angeles County** to join its platform and take advantage of a **limited-time MEHKO subsidy valued at \$597**.

Thanks to a program supported by LA County, qualified chefs can apply to become licensed **Microenterprise Home Kitchen Operators (MEHKOs)** and receive **free permitting, inspections, and food safety training** — if they apply **before the June 30, 2026 deadline**.

“We’re encouraging chefs across LA — from Inglewood to East LA — to take advantage of this rare opportunity to get certified and launch a legal home-based food business,” said the founder of Kash Kitchen.

Kash Kitchen makes the process simple through its **MEHKO Learning Portal**, which includes step-by-step checklists, SOP templates, video tutorials, and one-on-one guidance.

Here’s what LA chefs get by joining Kash Kitchen:

- **MEHKO Learning Tools** – How to get approved under LA County’s new rules
- **SOP & Application Support** – Editable documents and one-on-one help
- **Chef Dashboard** – Manage availability and orders
- **Visual Menus** – Post meals with pricing and images
- **Customer Messaging** – Chat with buyers directly
- **Payments via Stripe** – Fast, secure online processing
- **Mobile App Access** – Available on the [App Store](#)

Note: This LA County program **excludes Pasadena, Long Beach, and Vernon**, which operate under separate health jurisdictions.
