

Latest news: HJB Miner's new project is launched, Turns your BTC ?SOL?ETH?LTC holdings into passive income

Chicago, Illinois Jun 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - Bitcoin continues to lead large-cap assets, with a nearly 25% increase in the past month, showing a strong upward momentum. What is particularly eye-catching is that even in the case of an overall market correction, Bitcoin has remained stable at the key price of \$100,000. After several weeks of continuous gains, the cryptocurrency has now formed a solid consolidation platform in the range of \$102,000 to \$106,000.

At the same time, SOL has soared in tandem with the rise of Bitcoin, with a monthly increase of up to 150%, setting a three-month high, and its trading volume has shown an explosive growth of 17 times, reflecting the strong buying willingness of retail and institutional investors. In this market boom, investors are actively exploring more stable and sustainable investment channels, and the timely emergence of [HJB Miner](#) just provides an ideal choice for users seeking stable returns.
