

Leslie Simmons: Leading with Compassionate Care at Houston Methodist Primary Care Group

Advancing Healthcare Quality While Inspiring the Next Generation of Medical Assistants

New York City, New York Jun 20, 2025 ([IssueWire.com](https://www.issuewire.com)) - Leslie Simmons, a dedicated nursing professional, has built an inspiring career marked by a commitment to patient care, education, and community service. Beginning her nursing journey in 2008, Leslie earned her Associate Degree in Nursing from Galveston College, Texas. She has since pursued continuous education, including a Bachelor of Science in Nursing at Oklahoma Wesleyan University in 2016 and, most recently, a Master of Science in Nursing with a focus on Healthcare Quality and Patient Safety from Grand Canyon University in 2023.

Currently serving as a Clinic Registered Nurse with the Houston Methodist Primary Care Group, Leslie has established herself as an essential member of the healthcare team. Her primary responsibilities include managing chronic diseases, spearheading quality improvement initiatives, and promoting patient safety within the clinic. Leslie's role extends beyond her clinical duties as she actively precepts and teaches medical assistants, ensuring that the next generation of healthcare providers is well-equipped with the skills and knowledge necessary for success.

Leslie's commitment to mentorship is further exemplified through her volunteer work with the Word Power Life Center, where she engages with the community, fostering empowerment and support for individuals in need. Her dedication to nursing is matched only by her passion for giving back, making her a role model for both her colleagues and the community.

As a proud member of the American Nurses Association and the Texas Nurses Association, Leslie exemplifies the values of compassion and dedication inherent in the nursing profession. She believes that the foundation of excellent patient care lies in empathy and understanding, a sentiment that was instilled in her by a mentor early in her career. "I can teach you a lot of things, but I can't teach you how to have compassion... either you have it or you don't," her nursing instructor once told her. This message has profoundly influenced Leslie, guiding her approach to nursing and reinforcing her commitment to providing exceptional care.

Leslie Simmons continues to inspire those around her, demonstrating that a career in nursing is not just about treating illnesses but also about nurturing the human spirit. As she advances in her career, Leslie remains steadfast in her mission to enhance healthcare quality and patient safety while uplifting her community through education and compassionate care.
