

LORGAR™ Expands Its KBP70 Keyboard Lineup with Three New Mechanical Keyboards

Пресс-релиз_клавиатуры

Limassol, Cyprus Jun 25, 2025 ([Issuewire.com](https://www.issuewire.com)) - LORGAR™, a leading innovator in gaming peripherals, is proud to introduce three advanced mechanical [keyboards](#) that redefine performance, customization, and design. The KBP70TKLW, KBP7075W, and KBP70MW offer a unique combination of premium features, ensuring an exceptional typing and gaming experience for all users.

KBP70TKL Wireless: High-Performance Tenkeyless Keyboard

For gamers who demand both power and versatility, the **KBP70TKLW PRO** offers an **optimized tenkeyless layout** with **85 keys**, a **1.47-inch TFT display**, and a **Multimedia Smart Knob** for enhanced control. This keyboard features **hot-swappable LORGAR “Toxic Purple” linear switches**, a **gasket-mounted design**, and **RGB lighting** for complete customization. With **dual wireless connectivity** (2.4 GHz and BT 5.0) and an impressive **7,200 mAh battery**, users can enjoy prolonged gaming without interruptions.

KBP7075 Wireless: Versatile and Feature-Packed

The KBP7075W PRO is designed for users who need a compact yet fully functional keyboard. Featuring an 81-key, 75% layout, this keyboard seamlessly balances gaming and productivity. It is equipped with hot-swappable LORGAR “Toxic Purple” linear switches, an RGB lighting system, and a 0.66-inch OLED display that provides real-time system information. The gasket-mounted design ensures a premium typing experience with enhanced sound dampening. With dual wireless connectivity options (2.4 GHz wireless and BT 5.0) and a 3,750 mAh battery, it offers up to 312 hours of operation, making it perfect for extended gaming sessions.

KBP70M Wireless: Minimalist Design, Maximum Efficiency

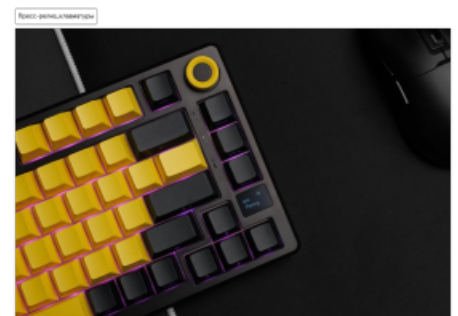

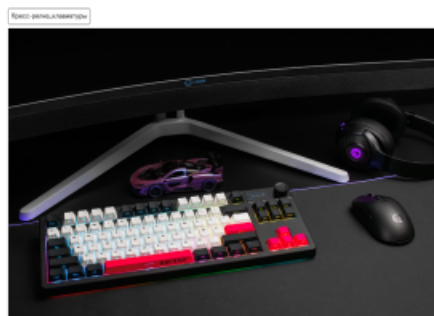

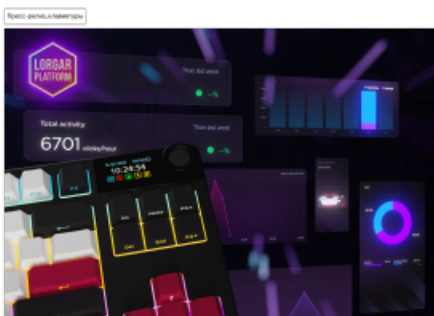

The KBP70MW PRO is designed for users who prefer a compact and stylish mechanical keyboard without compromising on features. It features a compact 65% layout with 66 keys, which reduces the keyboard’s footprint while retaining all essential functions. It also has a RGB lighting system, and LORGAR “Toxic Purple” linear switches for a smooth typing experience as all other models. Its dual wireless connectivity (2.4 GHz and BT 5.0) allows seamless switching between devices. The 3,750 mAh battery ensures up to 416 hours of use. This model is ideal for those who seek a balance between compact design and functionality.

Choosing the Right [LORGAR](#) Keyboard

- **KBP7075W PRO:** A 81-key keyboard with an OLED display, RGB lighting, and multi-device connectivity, perfect for both gaming and productivity.
- **KBP70TKLW PRO:** 85 keys layout and ultimate tenkeyless experience, featuring an interactive TFT display, larger battery capacity, and multimedia control knob for advanced customization.
- **KBP70MW PRO:** A compact yet powerful 66-key keyboard with RGB lighting and an extended battery life of up to 416 hours.

Each keyboard is available in multiple color variants to suit any setup. LORGAR also includes premium accessories, such as a keychain switch with keycap, spare switches, a switch/keycap puller, a cleaning brush, and hand warmers, all designed to enhance the user experience.

LORGAR remains committed to delivering high-quality gaming peripherals that prioritize performance, durability, and user customization.
