

Nathan John Lee, MD: A Leader in Orthopedic Spine Surgery at Midwest Orthopedics at Rush

Expert in Complex Spine Surgery, Committed to Personalized Patient Outcomes in Chicago and Westchester

New York City, New York Jun 19, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Midwest Orthopedics at Rush proudly announces the addition of Nathan John Lee, a fellowship-trained orthopedic spine surgeon, to its esteemed team. With expertise in cervical, lumbar, and complex spinal deformity surgery, Dr. Lee is dedicated to providing comprehensive care for patients experiencing a wide range of spinal disorders,

including scoliosis, degenerative arthritis, spinal stenosis, and more.

Dr. Lee sees patients at both the Chicago and Westchester, Illinois, offices and is committed to enhancing patient outcomes through a multi-disciplinary approach. Collaborating with leading specialists at Midwest Orthopedics at Rush, he focuses on personalized treatment plans that aim to improve the quality of life for his patients. In addition to his clinical practice, Dr. Lee serves as an Assistant Professor of Orthopedic Surgery at Rush University Medical Center, where he contributes to the education of future orthopedic surgeons.

Dr. Lee's academic credentials are impressive. He earned a Bachelor of Science in Chemical Engineering from Columbia University, graduating magna cum laude and receiving induction into the Tau Beta Pi engineering honor society. He went on to obtain his Medical Degree from the Icahn School of Medicine at Mount Sinai, where he graduated with Distinction in Research. His orthopedic surgery residency at Columbia University was distinguished by numerous accolades, including the prestigious Lawrence G. Lenke Award for Excellence in Spine Surgery.

After residency, Dr. Lee completed a Comprehensive Adult & Pediatric Spinal Deformity Fellowship at New York Presbyterian Och Spine Hospital, training under renowned surgeons in the field. His specialized training includes complex spinal deformities and advanced cervical spine procedures, with significant experience in pediatric and adolescent spinal surgery at the Morgan Stanley Children's Hospital.

In his practice, Dr. Lee employs cutting-edge technology for patient-specific preoperative planning, including spinal navigation, robot-assisted techniques, and machine learning applications. Over the past decade, he has authored more than 130 peer-reviewed articles and delivered over 250 presentations at national and international conferences, earning accolades such as Best Paper at the 39th North American Spine Society.

Dr. Lee's commitment to advancing spine surgery and patient care makes him a valuable addition to Midwest Orthopedics at Rush. Patients can expect innovative, compassionate care tailored to their unique needs.
