

Planet Math and Spirit of Math Partner to Bring International Spirit of Math Contest to Bermuda for 2025-26 School Year

Toronto, Ontario Jun 4, 2025 ([Issuewire.com](https://www.issuewire.com)) - [Planet Math](#) and [Spirit of Math](#) are thrilled to announce an exciting collaboration that will bring the International Spirit of Math Contest to Bermuda for the 2025-26 school year.

The partnership is a continuation of Spirit of Math's unwavering commitment to promote co-operation, inspire confidence and release the genius in every child all around the world. This collaboration will give Bermudian students the opportunity to showcase their abilities on an international stage, while growing their confidence and skills which they will need for future success.

"At Spirit of Math, we are dedicated to revolutionizing education for students everywhere," said [Kim Langen](#). "We are excited to support Planet Math in their mission to cultivate young talent and help students realize their greatest potential."

After years of perseverance and determination, one of Planet Math's Co-Founder, Sergio Pitcher transformed [By The Numbers](#) from a modest tutoring space in St. George's into a thriving educational enterprise with the business acumen & entrepreneurial expertise of Kevin Warner, Planet Math's Co-Founder. Originally focused on helping a small group of students improve their math skills, Sergio quickly saw its potential and took steps to renovate and refine the learning environment. As demand grew, he welcomed his first tutor, Kyrie Parfitt, to support the expanding student base. With ambitions to extend his reach beyond St. George's, Sergio realized the key to success lay in partnership. His vision aligned with the drive of Kevin Warner, leading to a collaboration that would reshape the tutoring landscape entirely.

With Kevin's expertise in business intelligence and entrepreneurship and Sergio's deep-rooted passion for mathematics, the duo reimaged the tutoring model, giving birth to Planet Math, a revolutionary math social enterprise. What started as a local tutoring business evolved into a dynamic educational hub, with Kevin securing a flagship location in Hamilton. Planet Math expanded its offerings, from extended tutoring hours and educational camps to philanthropic initiatives like Math-A-Thons and bursaries through The Planet Math Foundation #1024. Today, the partnership between Sergio and Kevin stands as a testament to their shared dedication to math, education, and community impact, cementing Planet Math as a force in the world of learning.

The partnership is one of many collaborations Spirit of Math is undertaking with international organizations to bring the International Spirit of Math Contest to every corner of the world. Competitive events such as these offer children an excellent opportunity to develop important skills such as analysis, problem solving and critical thinking. They also get the personal satisfaction (and motivational boost) of tackling and conquering some of the hardest questions.

About Planet Math

Planet Math is a dynamic organization dedicated to fostering a deep love and appreciation for mathematics among Bermuda's youth. Through innovative and engaging learning strategies, we bring math to life, inspiring curiosity and confidence. As Bermuda's leading math institute, we are committed to excellence, delivering superior education with the highest standards of service. Guided by ingenuity, quality, and unwavering dedication to our stakeholders, we strive to establish our brand globally while

shaping a brighter mathematical future.
