Leading the Way in Solar Zatka Machine Manufacturing

Shree Krushi Enterprises has a depth of industry experience and product quality and has designed and manufactured efficient Solar Zatka Machines that are long-lasting, safe, and functional. By providing customization, Sree Krushi Enterprises has gained the confidence of many farmers across Maharashtra and beyond.

The company's Solar Zatka Machines are ideal for:

- Preventing crop loss due to wild animals
- Reducing manual surveillance
- Promoting green energy use in agriculture
- Lowering electricity and operational costs

About the Product Range:

Solar Jhatka Machine

A Solar-powered jhatka electric fencing device that produces electrical energy-induced lightshocks to keep animals away from crops. Electric fencing is affordable and a safe and effective way to protect crops from animals.

Solar Zatka Machine

A strong, solar-powered electric fencing solution that provides an effective way to protect fields and farms from animals at an affordable price.

Agriculture Zatka Machine Manufacturers

Innovators of dependable electric fencing solutions that meet agricultural requirements and support farmers in keeping wildlife away from their crops.

Solar Jhatka Machine Manufacturers

Widely known for a high-quality, flexible, and environmentally friendly electric fencing system that is inexpensive, solar-powered, comes fully assembled, and only requires the user to mount it to fencing posts in the rural farmlands.

Solar Zatka Machine Manufacturers

Utilizing our inexpensive, energy-efficient Zatka Machines to provide solar security to farm stakeholders in a sustainable way.

Empowering Farmers with Smart Agricultural Solutions

Shree Krushi is committed to helping farms become smarter and safer; it is part of who we are. Shree Krushi is in constant innovation to provide agricultural communities with tools to encourage productivity while still being more environmentally responsible. Their team tests every item to ensure performance, durability, and field conditions.

Shree Krushi Enterprises can help you... Whether you're a small farmer, a large landowner, or in between!

About Shree Krushi Enterprises

Shree Krushi Enterprises is a producer and supplier of solar-powered agricultural equipment, primarily Solar Zatka Machines and technologies. The company is located in Maharashtra, India, is dedicated to delivering innovative, cost-effective, farmer-friendly solutions to secure his or her fields while enhancing agricultural productivity.
