

Rishi Tea launches 3 new teas to celebrate summer flavor and partnership with WHOLE FOODS

Milwaukee, Wisconsin Jun 12, 2025 ([Issuewire.com](https://www.issuewire.com)) - Rishi Tea & Botanicals unveils three inspired new teas: Garden Party, Tangerine Hibiscus, and Ritual Green. Blended to heighten the ordinary rituals and extol the exuberant essence of summer, these all-purpose teas are full of garden-fresh florals, citrus zings, and woodland-harvested flavor. They're meant to sparkle both hot and served over ice—ideal for the long, warm days to come, and after.

Garden Party, a lovely botanical tea, is available at Whole Foods Market only until October. This playful tea treats the senses to a fragrance of golden chamomile flowers, uplifting neroli bitter orange, blushing hibiscus, fresh-cut strawberry, and honeybush sweetness. The effect is a revitalizing, sophisticated tea perfect for outdoor brunches, garden parties, or just relaxing in the sun.

Garden Party marks the third consecutive year Rishi has launched an exclusive seasonal tea with Whole Foods Market, a partnership that continues to set the bar for culinary creativity and premium sourcing in specialty tea.

The only single-origin offering in this trio, Ritual Green is a vibrant, energizing green tea harvested from old-growth forest gardens in the highlands of northern Thailand. This full-flavored, gently roasted tea reveals natural sweetness and subtle floral notes of lily and orchid—ideal for mindful mornings or a refreshing midday pause.

Rounding out the collection is Tangerine Hibiscus, a vivid, juicy blend of refreshing hibiscus, sweet tangerine, zesty lime, and warming ginger. Bright and aromatic, this caffeine-free tea is delicious served warm or cold, making it a go-to option for any season, any time of day.

Garden Party and Tangerine Hibiscus are now available at Whole Foods Market stores nationwide. Garden Party is exclusively available until October. All flavors are now currently available on Rishi-Tea.com. All flavors will make their ways to Amazon later this summer.
