

Simplify AV Projects with XAVIA – XTEN-AV's New AI Agent

XTEN-AV XAVIA AI Assistant launches to streamline AV design, documentation, and project execution through intelligent automation

Union City, California Jun 11, 2025 ([IssueWire.com](https://www.issuewire.com)) - **XTEN-AV**, the leader in audiovisual workflow automation, has launched the **XAVIA AI Assistant**, a groundbreaking platform that helps AV professionals simplify complex projects using AI and natural-language voice control.

Whether you're creating a schematic, generating a BOM, or managing tasks across a large-scale install,

the **XTEN-AV XAVIA AI** platform lets you complete it all with a single voice or chat command. Built as the **first AV-specific conversational AI platform**, the **XAVIA AI Agent** replaces slow, manual workflows with instant automation—without compromising precision.

“AV professionals don’t need more tools—they need smarter ones,” said **Vibhav Singh**, Co-Founder of XTEN-AV. “The **XAVIA AI Assistant** is that smarter solution. We designed it to be intuitive, responsive, and powerful enough to transform the entire project lifecycle.”

What Makes XAVIA AI Different?

- **Voice- and Chat-Based Commands** – Say or type what you need, from “Create rack diagram” to “Send a project report”
- **Smart BOM Generator** – Input room type or equipment scope; receive a full bill of materials in seconds
- **AI-Generated Proposals** – Instantly build custom, client-ready proposals with pricing, scope, and terms
- **Project Tracking on Autopilot** – Assign tasks, launch Gantt timelines, and monitor progress in real time
- **Dealer Pricing Sync** – Upload once, and the platform handles dynamic cost updates across all documents
- **Mobile App Access** – Use **XAVIA AI Agent** on the go via XTEN-AV’s mobile-first experience

Built for Every Role in AV:

- **Designers & Engineers** – Eliminate tedious design and layout tasks
- **Sales Teams** – Accelerate proposal turnaround and improve consistency
- **Project Managers** – Gain live insights, reports, and team coordination through AI
- **AV Business Owners** – Unify tools, save costs, and scale operations efficiently

With the release of [XTEN-AV XAVIA AI](#), thousands of AV professionals can now simplify their workflows, reduce dependency on manual processes, and improve speed-to-delivery for every client-facing deliverable.

About XTEN-AV

XTEN-AV is a cloud-based AV design and automation platform trusted by more than 20,000 AV professionals across 40+ countries. From schematic drawings to sales proposals and task tracking, XTEN-AV helps AV teams streamline every step of their workflow. The launch of **XAVIA AI Assistant** brings the company’s vision full circle: a single platform, driven by AI, that makes AV project execution smarter, faster, and easier.
