

The Essai Way: 94.88% Acceptance Rate to Top 50 Global Universities

Essai Education Reports 80% Top 10 College Placement Rate for Students with Average SAT Scores, Reinforcing Its Proven Mentorship-Driven Approach to Elite Admissions

New Delhi, Delhi Jun 12, 2025 ([Issuewire.com](https://www.issuewire.com)) - In the highly competitive 2024–2025 US college admissions cycle, **Essai Education** has delivered outstanding placement results, demonstrating that students from all academic backgrounds can gain admission into top-tier universities with the right mentorship and strategy.

According to newly released data, **80% of Essai students with SAT scores at or near university averages** were successfully placed in **Top 10 colleges and universities**.

This remarkable outcome underscores Essai's proven ability to bridge the gap between potential and placement, helping students outperform expectations regardless of initial academic indicators.

Founded to make elite US college admissions accessible, Essai Education works closely with students worldwide to craft applications that reflect their full potential, not just test scores.

Through one-on-one mentorship, structured planning, and deep insight into what top institutions truly want, Essai's approach consistently produces results that rival traditional prep methods.

"At Essai, we don't believe success is reserved for the perfect profile," said Nicholas Henderson, Founder and Director of Essai Education. "We help students strategically showcase their strengths, tell

compelling stories, and align their applications with the values of the top institutions. These results prove that our system works for every kind of student."

The outcomes for high-performing students were equally impressive. Among students who worked with Essai and scored **1500 or above on the SAT**, the data revealed:

- A **61.53%** chance of admission into a **Top 10 college or university**
- An **89.74%** chance of being accepted into a **Top 30 college or university**
- A **94.88%** chance of gaining entry to a **Top 50 institution**

These statistics illustrate that while strong academic scores can open doors, Essai's mentorship model pushes students across the threshold, helping them identify the right-fit schools, craft standout applications, and navigate the complex admissions process with clarity and confidence.

Whether aiming for Ivy League schools, Stanford, or globally recognized institutions across the U.S. and U.K., Essai students benefit from a deeply personalized system.

Each application cycle is treated as a unique journey, and every student is equipped with tools to succeed through profile development, essay coaching, recommendation guidance, interview prep, and strategic list building.

The results speak for themselves: access, equity, and excellence, without compromise.

Essai Education's consistent placement into highly selective institutions proves that world-class results are not reserved for students with perfect profiles, but for those willing to commit, grow, and execute with support.

About Essai Education

Essai Education is a premier global admissions consulting firm helping students from diverse academic and geographic backgrounds gain admission to the world's most prestigious universities.

Founded by **Nicholas Henderson**, a Harvard alumnus with over 20 years of experience in international education, Essai has mentored more than 600 students into top-ranked institutions, including Ivy League universities, Stanford, Oxford, Cambridge, and other elite colleges worldwide.

At its core, Essai's methodology focuses on building compelling applicant profiles through a blend of academic planning, extracurricular development, narrative-based personal essays, and strategic admissions guidance.

Essai's programs are built to support the long-term success of every learner, from first-time applicants to transfer students, from first-year high school students to postgraduates.

With a team of expert mentors, former admissions officers, and education strategists, Essai is known for its data-informed, high-impact approach, tailored to meet the unique goals of each student and family.

Essai Education operates in more than 20 countries, with a strong presence in the U.S., India, and the U.K. The organization is committed to providing ethical, inclusive, and student-centered mentorship that goes beyond just getting in. It prepares students to thrive.
