

“The MarTian – SMG Hits 50M Streams with ‘Dirt’ by Key Glock: 5× Gold Production Milestone”

"Buffalo's rising producer celebrates streaming success while reclaiming his rightful credit."

Buffalo, New York Jun 20, 2025 ([IssueWire.com](https://www.issuewire.com)) - After years of industry silence and one viral beat, The MarTian SMG — producer and founder of Only Few Get Selected LLC — has finally received his long-overdue credit for the song “Dirt” by Key Glock.

Originally created under the title “Soulmate,” the beat was produced by The MarTian SMG in honor of his late cousin and quickly gained traction online. Despite being used without permission, the track soared to millions of streams, prompting the producer to launch a credit correction campaign across major platforms like Muso.AI, Genius, and BMI.

Today, the MarTian SMG stands officially credited as the rightful producer, reclaiming both recognition and revenue. With over 50 million verified streams and more across untracked platforms like Apple Music, his victory marks a major moment for independent artists fighting for transparency.

“This was never about beef — it’s about truth, legacy, and ownership,” he says.
