

Upcoming ProSomnus Panel to Spotlight Restfull Elite Sleep-Trained Experts

Montclair, New Jersey Jun 29, 2025 ([Issuewire.com](https://www.issuewire.com)) - ProSomnus Sleep Technologies has announced a live webinar panel set for **July 2**, bringing together leading voices in the treatment of obstructive sleep apnea (OSA) to discuss cutting-edge technologies and clinical strategies in the field including Kent Smith. Notably, three of the featured panelists—Dr. Charles Tozzer, Dr. Dana Blalock, and Dr. Michael Murray—share a distinctive foundation: each has been trained and supported by

[Restfull powered by the International Academy of Sleep \(IAOS\).](#)

For more than a decade, the team behind International Academy of Sleep has been hard at work helping dentists build thriving practices in dental sleep medicine, centered on oral appliance therapy. Their organization offers individualized coaching, proven business systems, and a supportive professional community that continues to shape some of the most successful sleep-focused dental practices in the country.

The upcoming panel underscores Restfull's role in cultivating clinical and entrepreneurial excellence in the field. All three Restfull-affiliated panelists credit the organization with helping them master both the clinical and business aspects of sleep dentistry.

"Restfull powered by IAOS gave me access to an amazing group of colleagues who challenge me and inspire me, mentor me and share with me the blueprint to success in Dental Sleep Medicine," says Dr. Michael Murray. "It's been truly life changing."

Dr. Charles Tozzer agrees: *"Success in sleep is very dependent on how you run your business... and IAOS showed me how to do it."*

Restfull offers a comprehensive curriculum that bridges the gap between clinical proficiency and operational execution—an often overlooked but essential component of long-term success in sleep dentistry.

This effort was recently enhanced with the launch of a combined suite of service and training that includes a focus on concierge support for medical billing meant to help dentists reliably generate over 20 sleep patients a month with predictable reimbursement rates.

ProSomnus' upcoming webinar entitled **From Mandibular Advancement to Hyo-glossal Repositioning: Chasing 100% Success** will take place Wednesday, July 2, 2025 at 8pm Eastern. Learn more and register to attend [here](#).
