Yokohama, Kanagawa Jul 7, 2025 ([Issuewire.com](https://www.issuewire.com)) - Step into “Yuzuru Dream World,” a newly opened public **VRChat** experience created by VTuber Himesaki Yuzuru.

Originally designed for her 3D model debut stream, the world is now freely accessible to everyone.

Visitors can explore a pastel-toned circular stage playing her original song “Hakoniwa Wonderland,” view a colorful gallery of illustrations hand-drawn by Yuzuru herself, and enjoy a whimsical tea party corner where plush animals sit together sharing sweets and tea.

The entrance area welcomes guests with adorable merchandise-style figures and a billboard introducing Yuzuru’s character.

Every corner of the space is filled with personality, warmth, and a sense of wonder. Whether you’re a longtime fan or just discovering her for the first time, you’ll find a space that feels both playful and comforting.

The experience is accessible on both VR headsets and desktop, so anyone with a PC can step inside and explore at their own pace.

Take a break from reality and stroll through a world full of charm, softness, and imagination. It’s a little dream you can walk through, one smile at a time.
