

Worksoft Connective Automation Platform 14.5 Now Available on SAP® Store

By integrating with RISE with SAP, SAP S/4HANA, SAP Cloud ALM, Worksoft 14.5 delivers AI-powered test automation that helps businesses accelerate migrations, improve testing outcomes and reduce risk across the SAP ecosystem.

Addison, Texas Jun 26, 2025 ([Issuewire.com](https://www.issuewire.com)) - Worksoft® today announced that its Connective Automation Platform 14.5 is now available on [SAP® Store](#), the online marketplace for SAP and partner offerings. Worksoft's Connective Automation Platform 14.5 integrates with SAP S/4HANA®, RISE with SAP, SAP GUI, SAP Fiori®, SAP Solution Manager, SAP Cloud ALM, SAP Solution Manager and line-of-business applications including SAP Ariba®, SAP SuccessFactors®, and SAP Concur® and delivers AI-powered business process test automation that helps organizations accelerate transformation and maintain quality at scale.

“Enterprises don’t need disconnected tools. They need one solution that keeps pace with change,” said Matt Schwartz, CEO at Worksoft. “With Worksoft 14.5, we’re delivering a tightly integrated platform with AI embedded that helps SAP customers modernize testing, respond faster to change, and align IT and business teams around quality without the usual friction or overhead.”

Purpose-built for both business and IT users, Worksoft Connective Automation Platform 14.5 delivers continuous testing and risk reduction across SAP environments at the lowest total cost of ownership in the market. The latest release introduces powerful new capabilities that unify test automation, change intelligence, data provisioning, and reporting in one fully integrated solution.

What’s new in Worksoft 14.5:

- **AI at the Core:** AI is deeply embedded across the platform from self-healing automation to intelligent discovery to reduce test maintenance, highlight critical issues, and drive faster resolutions.
- **Worksoft Data Connect powered by EPI-USE Labs:** Streamline testing with on-demand test data provisioning, eliminating bottlenecks caused by unavailable or outdated data.
- **Worksoft Reporting Services:** Automate the creation of hundreds of custom reports in parallel, empowering teams to communicate outcomes, track progress, and demonstrate business value.
- **Worksoft Impact:** Use AI-powered change intelligence to focus testing where it matters most—enhancing test coverage, optimizing scope, and reducing risk.

Worksoft’s integration with SAP Cloud ALM, SAP Solution Manager, and SAP business applications supports end-to-end visibility and test orchestration across one platform, purpose-built for SAP innovation. Whether migrating to SAP S/4HANA or adopting RISE with SAP, Worksoft 14.5 helps customers deliver with confidence.

SAP Store, found at store.sap.com, delivers a simplified and connected digital customer experience for finding, trying, buying, and renewing more than 2,300 solutions from SAP and its partners. There, customers can find the SAP solutions and SAP-validated solutions they need to grow their business. And for each purchase made through SAP Store, SAP will plant a tree.

Worksoft is a partner in the SAP PartnerEdge® program. The SAP PartnerEdge program provides the

enablement tools, benefits, and support to facilitate building high-quality, disruptive applications focused on specific business needs – quickly and cost-effectively.
