Why the Netherlands?

The Netherlands continues to be one of Europe’s most attractive destinations for business formation. With its strategic location, robust infrastructure, and favorable tax treaties, it offers a gateway to the European market. Yet, many entrepreneurs hesitate due to perceived barriers—especially the need for a physical office.

ABiLiTieS is here to change that narrative.

“We believe that innovation in business should be matched by innovation in infrastructure,” says Robert Bron, Director of [ABiLiTieS](https://www.abilieties.com). “Our virtual office solutions allow entrepreneurs to establish a legal presence in the Netherlands without the overhead of renting physical space.”

Step-by-Step Guide to Registering a Dutch Business Remotely

ABiLiTieS offers a streamlined, fully compliant process for setting up a Dutch company remotely. Here’s how it works:
