Ahmedabad, Gujarat Jul 26, 2025 ([IssueWire.com](https://www.issuewire.com)) - Affoscent, a rising Indian fragrance brand, is changing how India smells and shops for perfumes. With a mission to make luxury affordable, Affoscent offers high-quality, long-lasting perfumes crafted using fine European fragrance oils—all at pocket-friendly prices.

Based in Ahmedabad, Gujarat, the brand is built on over a decade of industry expertise. Unlike many perfume sellers in the market, Affoscent proudly creates its own signature scents instead of copying popular ones. Each bottle is original, elegant, and built to last up to 12 hours or more, depending on usage.

“We believe luxury shouldn't be out of reach. That's why Affoscent perfumes combine international quality with Indian affordability,” said a brand representative.
