

AI+Q Summit Tour Launches in Bangkok, Connecting the Future of Intelligence

GatherOn Events LLP is proud to announce the launch of the AI+Q Summit Tour, kicking off in Bangkok in October 2025.

Bangkok, Thailand Jul 31, 2025 ([IssueWire.com](https://www.issuewire.com)) - GatherOn Events LLP is proud to announce the launch of the **AI+Q Summit Tour**, kicking off in **Bangkok in October 2025**. As Southeast Asia continues to emerge as a global tech powerhouse, this groundbreaking summit will spotlight the convergence of **Artificial Intelligence and Quantum Computing** — technologies shaping the future of enterprise, governance, and humanity itself.

The **AI+Q Summit** is designed as an elite platform for policymakers, enterprise tech leaders, and disruptive innovators to explore actionable strategies in an era of exponential acceleration. With **16+ expert-led sessions**, a curated exhibitor showcase, and strategic networking experiences, the summit aims to catalyze collaboration and thought leadership across borders.

A Region on the Rise

Thailand is rapidly becoming a key player in Asia's digital transformation story, backed by government AI infrastructure investments and a growing appetite for innovation. The **AI+Q Summit Bangkok** will anchor these developments by uniting global thinkers and regional champions to reimagine the future through the lens of **AI-native architecture, quantum breakthroughs, and ethical intelligence systems**.

"Bangkok is not just a host city—it's a statement. Southeast Asia is ready for deeper conversations on transformative tech, and AI+Q is here to lead that dialogue," said **Mohammed Raiyan**, Creative Director at GatherOn Events LLP.

Headliners, Highlights & Hard Questions

The inaugural Bangkok edition will feature **power panels, C-level dialogues, and multi-sector**

spotlights with leading voices from finance, logistics, energy, government, and pharma. Attendees can expect:

- **Enterprise 2030: The Multi-Agent Future of IT**
- **Quantum + AI Synergy: From Labs to Markets**
- **Digital Sovereignty, Regulation & Responsible AI**
- **AI Infrastructure: Scaling Models, Teams & Ethics**

Beyond content, the event will offer a **bespoke Exhibition Lounge**, where enterprise solution providers and AI-first startups can showcase products and build 1:1 connections with enterprise buyers, VCs, and policymakers.

Designed for Deal-Making

Far from a passive conference, **AI+Q Summit Bangkok** is engineered to facilitate **deal flow, partnerships, and pilot programs**. Through curated **meeting zones, after-hour sessions, and on-site media production**, sponsors and speakers will gain unmatched visibility and access to Thailand's growing tech investment network.

"Innovation needs friction, collisions, and community. That's exactly what AI+Q is building — a high-trust zone where real conversations drive real action," Raiyan added.

The Road Ahead

Following its Bangkok debut, the **AI+Q Summit Tour** will expand into key global cities across the Middle East, Africa, and South Asia in 2026, aligning with regions prioritizing sovereign AI strategies and quantum readiness.

With a **limited number of exhibition and speaking opportunities remaining**, GatherOn Events invites industry pioneers, solution providers, and media partners to be part of the movement.
