

Alfa Medico – Pre-Fabricated Modular Operation Theaters (OTs) | NABH Compliant Surgical Solutions

Upgrade your hospital with Alfa Medico's pre-fabricated modular OTs. Quick installation, NABH-compliant, sterile design, and customizable layouts for advanced surgical care.

Meerut, Uttar Pradesh Jul 25, 2025 ([IssueWire.com](https://www.issuewire.com)) - Alfa Medico Introduces State-of-the-Art Pre-Fabricated Modular Operation Theaters (OTs) to Improve Hospital Quality in India [24/07/2025], India's Meerut The innovative Pre-Fabricated Modular Operation Theaters (OTs) from Alfa Medico, a respected name in medical infrastructure solutions, are now available. These OTs are designed to meet

international healthcare standards while significantly reducing construction time and cost.

Given the rapid expansion of the healthcare sector in India, hospitals, assisted living facilities, and diagnostic centers urgently need to upgrade their surgical environments. High-precision surgery and infection control require a sterile, clean, and specially designed environment, which Alfa Medico's Modular OTs provide.

"Our **Pre-Fabricated Modular OTs** are built with German technology and comply with NABH & ISO standards," stated [Spokesperson Name], [Designation] at Alfa Medico. "We want to provide hospitals with access to high-quality, reasonably priced surgical facilities that improve patient safety and operational efficiency."

The key characteristics of Alfa Medico's modular OTs are as follows:

Simple Installation: Using pre-engineered panels reduces construction time by up to 60%.

Panels with antibacterial and antifungal qualities to stop infections are examples of hygienic surfaces.

Flexible Layouts: Made to accommodate any hospital's requirements and available space

Fully Integrated Systems: Air Filtration (HEPA), Laminar Airflow, Lighting, and Electrical

Compliant: Meets international NABH, ISO, and OT standards

Low-maintenance and long-lasting materials include seamless corners, epoxy flooring, and long-lasting wall panels.

Reliable by Well-Known Healthcare Facilities

Alfa Medico's modular solutions are already in use in multispecialty hospitals, orthopedic clinics, IVF clinics, and government healthcare facilities in India. The company provides end-to-end project execution in addition to civil, electrical, HVAC, and medical gas pipeline work.

Why Choose Alfa Medico?

15+ years of work experience

Fully compliant turnkey OT configuration

Dedicated project management and post-installation support

We are trusted by more than 500 clinics and hospitals nationwide.
