

BabaSharo TV Leads the New Wave of Children's Edutainment Across Digital Platforms

BabaSharo TV combines creative storytelling, multicultural music, and emerging AI technology to shape the future of children's education and entertainment.

Dubai, United Arab Emirates Jul 17, 2025 ([Issuewire.com](https://www.issuewire.com)) - BabaSharo TV, one of the world's fastest-growing children's content platforms, is redefining the edutainment space through vibrant music videos, multilingual storytelling, and innovative digital distribution. With over **1.8 billion views** and **7.7 million new subscribers**, the channel is now among the **top global YouTube destinations for children's education**.

Founded by **Sherif Tawfik Sherif**, a media producer and motion graphics designer, BabaSharo TV stands out for its commitment to **original content**, **cultural inclusivity**, and safe digital learning. The platform currently produces content in **English, Arabic, Spanish, Portuguese, and Hindi**, and has expanded to **mobile applications** and **global music platforms** such as Spotify, Apple Music, and YouTube Music.

In 2025, BabaSharo TV took its biggest leap yet by initiating the **"AI-Powered Future for Kids"** project — an ambitious in-house initiative aimed at developing original AI-driven characters, personalized song experiences, and educational interactions that adapt to each child's learning pace. Though the project is still in early development, it positions BabaSharo TV as a pioneer in the AI-for-kids space.

With YouTube Gold and Silver Creator Awards and a #Top50 global ranking by Tubefilter in 2022, BabaSharo TV continues to raise the bar for digital-first children's entertainment.
