

Boogie Cruise Launches: Young Entrepreneurs Fuse Racing and Live Music on Steam

Boogie Cruise breaks new ground through its audio synergy, featuring a seamlessly embedded live radio station curated by THC Radio and streamed via CafeKinship.com.

Las Vegas, Nevada Aug 1, 2025 ([Issuewire.com](https://www.issuewire.com)) - Buckle up for *Boogie Cruise*, a bold new entry into the racing genre set to hit Steam on **August 1**, following the **demo debut on July 16**. Designed by independent developers **Lilfoxeone (13)** and **Prisimultra (11)**, this visually stunning, music-infused game redefines what's possible when youthful creativity meets cutting-edge technology.

Players will dive into a thrilling multiverse of challenges—from speeding across neon-drenched skyscrapers to battling blizzards and dodging traps in a secret dungeon lair. But *Boogie Cruise* isn't just about high-octane thrills—it's a fusion of gameplay and sound, with a fully integrated radio station curated by THC Radio and powered through CafeKinship.com.

A Sonic Playground for musicians This first-of-its-kind platform invites independent artists to upload tracks directly through CafeKinship.com, allowing their music to be streamed in-game by racers around the world. It's a breakthrough moment for both community-driven gaming and artist discovery, bridging players and creators in a collaborative ecosystem. *Boogie Cruise* is now on Wishlist.

About the Developers:

Under the publishing label [Skill Mode](https://SkillMode.com), Lilfoxeone (13) and Prisimultra(11) bring impressive ambition to their debut release. Their vision—melding immersive gameplay with sparking communal innovation reflects a growing shift in how games empower youth creators and foster digital communities.

Boogie Cruise offers not just exhilarating entertainment, but a cultural signal that innovation knows no age limit. With community integration and genre-defying design, this project is poised to captivate gamers, musicians, and tech enthusiasts alike.
