

Bpract Launches 'Bpract Academy' in Calicut to Empower Future Software Developers

New training institute offers real-world project experience and industry-focused curriculum to bridge the gap between education and employability in tech.

Kozhikode, Kerala Jul 2, 2025 ([Issuewire.com](https://www.issuewire.com)) - Bpract Technologies, a [leading software solutions company](#), has announced the official launch of Bpract Academy, its dedicated software development training institute in Calicut. The academy aims to equip aspiring developers with practical, job-ready skills by integrating hands-on training with real-time project experience and expert mentorship.

Bpract Academy is set apart by its commitment to creating industry-aligned professionals, not just certificate holders. The program is designed for graduates, early-career professionals, and anyone passionate about entering the tech space with confidence.

Key Features of Bpract Academy:

- **Live Project Exposure:** Trainees work on actual client and internal projects, gaining experience with real development cycles and agile methodologies.
- **Mentorship by Experts:** Training is delivered by senior engineers and developers from Bpract's in-house team.
- **Industry-Centric Curriculum:** The syllabus covers core and advanced technologies, including Python, JavaScript, React, Node.js, Git, DevOps, and deployment best practices.
- **Career Support:** Includes mock interviews, resume reviews, soft skills training, and personalized placement assistance.

Located at Bpract's headquarters in Calicut, the academy provides a collaborative and tech-enabled learning environment. It is open to computer science graduates, self-taught programmers, and professionals looking to reskill or upskill.

Enrollment is now open. Interested candidates can visit <https://bpract.com/software-development-training-calicut/> for more details and application instructions.
