

Cafepoint's Instant Boiling and Sparkling Water Tap Solutions

The advertisement features a light orange background. On the left, the Cafepoint logo is at the top, followed by the text 'Upgrade Your Workplace with Premium Boiling Water Taps from CAFEPOINT'. Below this, contact information is listed: 'cafepoint.co.uk', '020 8038 6981', and 'customerservices@cafepoint.co.uk'. On the right, there are three images: a sleek, modern boiling water tap; a close-up of a tap's control panel with a digital display; and two smaller images showing the tap dispensing water into a glass and a mug.

London, United Kingdom Jul 3, 2025 ([Issuewire.com](https://www.issuewire.com)) - Providing instant access to hot and cold drinks has become an essential part of modern office life. Whether it's a quick cuppa during a break or a chilled glass of sparkling water after a meeting, convenience, efficiency, and quality are key. That's why more businesses are investing in [boiling water taps](#) and advanced hydration solutions. At Cafepoint, we offer a wide range of high-performance boiling and sparkling water taps that elevate the workplace experience.

Why Boiling Water Taps Are the Future of Office Kitchens

Gone are the days of waiting for a kettle to boil. With a boiling water tap, you can enjoy instant boiling water at the touch of a button. This not only saves time, especially during busy hours, but also reduces energy consumption compared to traditional kettles or boilers.

Boiling water taps are ideal for offices, meeting rooms, hospitality areas, and co-working spaces. They provide:

- **Instant boiling water** for tea, coffee, and instant meals
- **Under-counter installation** for a clutter-free environment
- **Energy efficiency** through insulated tanks and smart sensors
- **Sleek, modern design** that complements any kitchen or refreshment area

At Cafepoint, we provide high-quality boiling water taps from trusted manufacturers, ensuring your staff and visitors always have quick access to hot drinks.

A Smarter Way to Stay Hydrated

In addition to hot water, hydration plays a vital role in employee well-being. That's why many of our clients opt for taps that also offer chilled and even sparkling water, making it easy to keep everyone refreshed throughout the day.

A Sparkling Water Tap is a stylish and functional addition to any office. These taps dispense filtered, still, chilled, and carbonated water instantly, reducing the need for single-use plastic bottles and encouraging healthier hydration habits.

Benefits include:

- **Filtered, fresh-tasting water** on demand
- **Chilled and sparkling options** for variety and preference
- **Eco-friendly and sustainable**, reducing plastic waste
- **Cost-effective**, especially for larger teams

At Cafepoint, we offer both standalone sparkling taps and combination models that include boiling, chilled, and sparkling options in a single system.

Cafepoint – Your Trusted Supplier of Boiling Water Taps

As a leading provider of workplace refreshments in the UK, Cafepoint is trusted by businesses across London and beyond. We specialise in helping companies upgrade their office kitchens with efficient, modern hydration systems, including boiling water taps and sparkling taps.

Here's why clients choose us:

1. Tailored Recommendations

We assess your space, usage, and preferences to recommend the ideal tap system for your workplace. Whether you're after a basic boiling water solution or a multifunctional tap with chilled and sparkling options, we've got you covered.

2. Expert Installation

Our professional technicians handle the full installation process with minimal disruption to your team. All units are installed to the manufacturer's specifications and tested for performance and safety.

3. Maintenance & Servicing

We don't just install and leave. With regular maintenance and filter replacements included in many of our

plans, your boiling or Sparkling Water Tap will continue to perform at its best, day in and day out.

4. Flexible Leasing & Purchase Options

Whether you prefer to lease or buy outright, Cafepoint offers flexible pricing options to suit your budget. Our leasing plans include servicing and repairs, giving you complete peace of mind.

Ideal for Offices of All Sizes

From small co-working spaces to large corporate headquarters, our tap solutions are scalable to suit all environments. Choose from compact under-counter systems, elegant countertop units, or integrated solutions with touch-free functionality.

Our clients span various sectors, including legal, finance, tech, healthcare, education, and hospitality. Regardless of industry, all workplaces benefit from improved convenience, better hydration, and a modern kitchen aesthetic.

Sustainability Matters

Environmental concerns are more important than ever, and Cafepoint is proud to support sustainable solutions. Our boiling water taps and [sparkling water taps](#) use energy-efficient technology and filtration systems that reduce your carbon footprint while cutting down on plastic waste.

By switching from bottled water to a tap system, businesses can save thousands of plastic bottles per year. It's a simple yet effective way to promote eco-conscious behaviour in the workplace.

The Perfect Complement to Office Coffee Machines

Already using a Cafepoint coffee machine? Our boiling water and sparkling taps make the perfect addition to your refreshment area. While your bean-to-cup machine serves up barista-quality coffee, your tap can provide boiling water for tea lovers and refreshing sparkling water throughout the day.

Together, these systems create a complete, efficient, and high-quality drinks station for your office.

Get Started with Cafepoint

If you're ready to enhance your office kitchen with a modern and reliable boiling water tap, [Cafepoint](#) is here to help. From expert advice to full installation and ongoing support, we offer an end-to-end service you can rely on.

Speak to our team today to explore the right tap solution for your workplace. Whether you're interested in a simple boiling tap or a fully integrated Sparkling Water Tap system, we'll help you find the perfect fit.

Let Cafepoint make your office hydration smarter, faster, and more stylish.
