

California Singles Launches Elite Boutique Matchmaking Service for Relationship-Minded Singles Across California

Los Angeles, California Jul 19, 2025 ([IssueWire.com](https://www.IssueWire.com)) - In a dating landscape dominated by apps, algorithms, and impersonal swiping, a new service is bringing human connection back to the forefront of romance in the Golden State. **California Singles** is proud to announce the official launch of its **boutique, personalized matchmaking service**—offering an exclusive and highly individualized approach to helping serious singles find meaningful, lasting love.

At the heart of the service is **Alexandra Freeman**, a nationally renowned matchmaker and dating strategist who leads the company with passion, professionalism, and a proven track record. Alexandra is certified by the **Matchmaking Institute**, the industry's most respected training organization, and brings more than a decade of experience working with elite singles who are ready to find "the one." Her expertise has helped thousands of successful, relationship-minded individuals navigate the modern dating world with clarity and confidence.

"California Singles was built for people who are done wasting time and want something real," says Alexandra. "We offer a hands-on, confidential, and strategic approach—getting to know each client personally and matching them based on genuine compatibility, shared values, and relationship goals. Unlike large, corporate matchmaking services, we work with a **small and curated list of clients**, so we can fully invest in each person's success."

California Singles adheres to the highest ethical standards in the industry and operates with discretion, empathy, and a deep respect for its clients' time and emotional investment. Every match is hand-selected, every introduction intentional. The process is designed not only to facilitate introductions but also to support clients throughout their journey—offering coaching, insight, and tailored strategies for building real connection.

The service is now available across the entire state of California, including all major metro areas such as:

Los Angeles, San Francisco, San Diego, Sacramento, San Jose, Long Beach, Fresno, Oakland, Bakersfield, Anaheim, Santa Ana, Riverside, Irvine, Glendale, Santa Clarita, Oxnard, Ontario, Huntington Beach, Elk Grove, and more.

Whether you're a tech entrepreneur in Silicon Valley, an executive in downtown LA, or a creative professional in San Diego, **California Singles** offers a discreet and professional alternative to dating apps and high-volume matchmaking services.
