

Cloud Science Labs Achieves Salesforce Summit Partner Status for FY26 Q1

Hello,

We recently completed our FY26 Q1 evaluation of Salesforce Consulting Partners and you are **Summit**.

Your Partner Community should already reflect this tier. If you do not see the update reflected by June 13th, please [log a case](#).

Your firm will continue to enjoy the benefits of being a Summit partner for the remainder of the Salesforce Fiscal Year, which ends January 31st, 2026. Visit p.force.com/sibenefits to learn more about what those benefits are, and how to take advantage of them. You are at risk of being demoted to a lower level if additional Trailblazer points are not earned by January 31, 2026. We encourage you to visit your scorecard page and the [Consulting Trailblazer Scorecard Learn page in Partner Community](#) as soon as possible to review the pillar details and the points required to maintain your current Trailblazer level.

Throughout this year, we will continue providing our partners with tools and resources that align with specific tier levels to drive growth and support success. For additional details on the Consulting Partner Program, please review the materials and policies available on the [Consulting Partner Program page](#) on the Partner Community.

Thank you for being a valued member of our incredible partner ecosystem.

Sincerely,

Salesforce Partner Program

Salesforce consulting company, has been recognized once again as a **Salesforce Summit Partner** for FY26 Q1. This recognition represents the highest tier in [Salesforce's Consulting Partner](#) ecosystem, marking a significant milestone in the company's ongoing journey of delivering trusted, scalable, and industry-leading Salesforce solutions.

Achieving the Summit Partner designation is a testament to Cloud Science Labs' proven success in client delivery, technical expertise, and overall customer satisfaction across verticals. The tier is awarded based on a combination of customer success metrics, certified expertise, and innovation within the Salesforce ecosystem.

The company has consistently demonstrated its capability to drive **enterprise-grade digital transformation** by combining CRM strategy with advanced AI implementation, workflow automation, and omnichannel integrations. Its services span across industries, including real estate, finance, manufacturing, retail, and healthcare.

“Our reappointment as a **Salesforce Summit Partner** reflects the deep trust our clients place in us, and the dedication of our consultants who deliver meaningful business outcomes every day,” said a spokesperson for Cloud Science Labs. “We continue to evolve with the Salesforce platform, leveraging innovations in Einstein, Data Cloud, and automation to help our clients lead in their digital journey.”

Cloud Science Labs is known for its work in **Salesforce Service Cloud, Sales Cloud, Marketing Cloud, Experience Cloud, and industry clouds like Financial Services Cloud and Nonprofit Cloud**. The company has recently been engaged in multiple projects involving AI-driven enterprise agents and CRM transformations aimed at improving customer engagement and data-driven decision-making.

With this new recognition, Cloud Science Labs remains committed to pushing the boundaries of CRM innovation. As the need for agile and intelligent solutions grows across industries, the company plans to deepen its investments in AI, vertical solutions, and customer enablement.
