

Cosmic Giant's Latest Track 'AI Doesn't Know' Is Depiction of Reality

Music artists can tell the truth unapologetically through their music and that is what Cosmic Giant is doing with his latest song 'AI Doesn't Know', a subtle rock music creation.

Minneapolis, Jul 4, 2025 ([Issuewire.com](https://www.Issuewire.com)) - Versatile music artist **Cosmic Giant** has come up with a highly thought-provoking track that depicts the harsh reality of this AI-driven digital age. The artist has dropped a brand new song called '**AI Doesn't Know**' which is currently much attention among music lovers. The song is comprised of an engaging rock soundscape and was released under the

label of Side Effect Records which has done a great job with the productions. With its thought-provoking lyrical approach and engaging soundscape, this song is another milestone in the artist's musical journey.

Just like the name suggests, '[AI Doesn't Know](#)' is a song about the modern AI-driven world where humans are more likely to take suggestions from AI for decision-making rather than taking things into their own hands. While the assistance of artificial intelligence can help in many processes, AI should not be the solution to every problem because the 'AI Doesn't Know'. It mainly works on the basis of input offered by humans and something that can be good for humans does not necessarily be understood by AI as they are intelligent programs but not sentient beings. This song stands out as the most relevant track that showcases the reality.

Cosmic Giant likes to brainstorm ideas and concepts without the help of AI and that is reflected through each of his musical projects. Previously, the artist has dropped two more singles namely 'I Scream for Love' and the namesake 'Cosmic Giant' which gathered much attention. Follow this talented artist on [Spotify](#) and [Apple Music](#) to enjoy his musical creations.
