

## Crescent City CA's Harbor Planning Unique "Fun Hub" Surrounded by Ocean & Tallest Redwoods at Premier Crabbing Port

Harbor Commission's Economic Development Plans Focuses on Quality Services for Residents & Visitors with Emphasis on Hospitality, Marina Services, Amusements, Food Events, Entertainment, Music Crab Festivals in California's Premier Crabbing Region

**Sacramento, California Jul 22, 2025 ([Issuewire.com](http://Issuewire.com))** - The Harbor District Commission of Crescent City, California, is currently immersed in improving, expanding and revitalizing the coastal area in its domain. Development in this idyllic spot will result in a trend-setting gathering point for locals and visitors to enjoy all that the harbor district has traditionally offered plus the infusion of upgraded hospitality services, entertainment and events. This expansion will contribute to the economic development of the region, increase employment opportunities, provide educational opportunities, expand dining experiences, marina services, support commercial fishermen while celebrating the crab industry, uplifting the brand image of the district and giving entrepreneurs and investors an opportunity to participate in creating a dynamic beachside "Must Visit" attraction located at the midpoint of America's west coast.

The goal of this project is to create a "fun hub" on the waterfront that is a magnet for locals and an experiential oasis for a strong percentage of the 15,000 travelers who drive through the Crescent Harbor

District daily traveling on historic and scenically gorgeous Highway 101 between Los Angeles and Seattle, Washington. The expanded harbor offerings are being designed to entice travelers to stop, eat, shop, experience land and sea adventures that include communing with the local redwood trees stay overnight to participate in events and connect with unique businesses that share the harbor with commercial fishermen and ocean activities and choose accommodations from inns to hotels, vacation home rentals and RV campgrounds to fit every lifestyle and budget.

Nestled in the northwest corner of California, twenty miles south of the Oregon border, at the midpoint between borders of Canada and Mexico, this enchanted coastal region of [Crescent City](#) is sandwiched between the Pacific Ocean and the tallest trees in the world, the revered Giant Redwoods. This beachcomber's paradise bubbles over with the work of creative artisans woven into the historic backdrop of Battery Point Lighthouse and Native American Tribal history and current accomplishments. Hundreds of seals and sea lions greet harbor visitors at this port known as California's premier crabbing location.

This harbor development project is a work-in-progress on the agenda of the Harbor District Commission's members: [Gerhard Weber, Vice Chair Annie Nehmer, and Commissioners Rick Shepherd, John Evans and Dan Schmidt](#). Consultants with exemplary experience in creating unique centers of commerce have been commissioned to develop viable and attractive architectural plans in which a variety of additional businesses will be encouraged to join those already prospering in this setting.

Those who live in Crescent City are quick to point out what a fantastic place it is to visit and to live in. Recognized leader in the travel industry, [Stephanie Abrams](#), rated by Travel Agent Magazine as One of the 100 Most Powerful Women in Travel and travel expert host of nationally syndicated radio and [TV travel shows](#), explains that she chose Crescent City as her new home in 2022 because of the location's amazing features and benefits.

"Living in Crescent City, California is like living in perpetual springtime! While other parts of California and the rest of America experience triple-digit heat, we rarely break 72 degrees! While we have sunny summers, we receive enough rain in the winter months to assure we are drought-free. It's a perfect place to live. I like to tell people that Crescent City is, 'A Cool Place to Chill Out!'"

Asked what she believes is key to the success of this project, Abrams notes, "Success is all about the people involved. Giant steps forward require strong, visionary leadership. I've seen quantum leaps in organizations' development when leadership is paired with 'a new broom that sweeps clean!' Success is really about leaders' ability to take visions and turn them into results that keep all stakeholders happy. Strong leadership is key to Crescent Harbor District becoming the 'Seashore- Lover's Go-To Spot' which will be the reward for the infusion of effort, investments, coordinated hard work and the detail-oriented drive of quality leadership working to achieve the goals for all concerned," Abrams states. "And I am confident that the success of this Crescent Harbor District project will remind folks that Northern California doesn't end in San Francisco or Sacramento!" Abrams concludes.

Progress will be reported at [Crescent Harbor District](#) website.
