**Trusted by 100+ Clients**

**Email:** [info@capsquery.com](mailto:info@capsquery.com)  
**Phone:** +1 713 3478380

**Houston, Texas Jul 12, 2025 ([Issuewire.com](https://www.issuewire.com))** - Businesses often face challenges with outdated websites, disparate systems, or difficulties integrating AI capabilities into their existing setup. Capsquery addresses these issues through transparent processes, effective implementation, and strategic planning:

- Helps teams move from traditional websites to AI-efficient platforms
- Simplifies the adoption of intelligent features like:

1 . Chatbots for support and engagement

2. Recommendation engines for better user personalization

3. Predictive search to streamline UX

- Offers clean, scalable code that's easy to maintain and upgrade
- Bridges the frontend/backend gaps with strong full-stack development

Automating tasks and cutting down the burden is made easy with our AI offerings.

- AI-driven Product Description for an eCommerce business
- AI-driven email automation
- AI-driven inventory management with intelligent notification
- AI-driven server optimisation
- AI-driven back-end Optimisation & Code Testing
- AI-generated SEO Metadata
- Chatbots for support and engagement
- Recommendation engines for better user personalization
- Predictive search to streamline UX

## About Us

Capsquery is a leading custom web development company that conducts insightful workshops for entrepreneurs to make their websites AI-efficient and streamline operations with a single click. They offer top-of-the-line web development and IT services to businesses in the Indian and US regions.

Being the Top Custom [Web Development Company in the USA](#) and India, they walk all the miles to scale your business to new heights with the power of web design, API development and so on. Get ready to launch the product to the market with experts.

## Services Offered

Capsquery offers a range of custom web development services tailored to meet the specific business needs of startups and enterprises. The company offers:

- Website Development
- Web Application Development
- AI Integration
- LLM Integration
- Mobile App Development
- AI Chatbot

Every service focuses on performance optimization, security measures, and scalable architecture. This approach enables businesses to maintain control as they progress through their digital transformation process.

## Who It Benefits

The solutions are effective for businesses at various stages of development. Startups creating their initial products and enterprises modernizing older systems both find value in these offerings:

### Startups

- MVP builds for fast product testing
- Modular, easy-to-scale codebases
- Lightweight architecture to control costs

### Enterprises

- Complex integrations and custom APIs
- Scalable backend systems for heavy traffic
- Plugin development for internal tools or third-party platforms

Capsquery combines custom development with AI-enhanced features. This combination ensures that each client receives technology solutions tailored to their specific business objectives.

## Statement from the Directors

"We've seen a shift! Companies are no longer just looking for a website. They want intelligence, automation, and personalization built in from day one," said Anand Gupta, Director of Capsquery.

This workshop is designed to provide business owners with a clear understanding of how to make their websites AI-ready and adaptable, enabling them to change and improve in response to market behaviour and trends.

Whether it's a SaaS company plugin or an API development job for a US-based eCommerce client, our vision remains the same: to bring clarity and momentum to digital teams, Ramesh Prasad, Director at Capsquery.
