

## DataCaptive Launches Enhanced Email Verifier Tool with 100 Free Trials Per Month

Smarter. Cleaner. Faster. The new Email Verifier by DataCaptive helps marketers eliminate bounces, improve deliverability, and validate 10K+ emails with 100 free credits every month.

Santa Clara, California Jul 17, 2025 ([Issuewire.com](https://www.issuewire.com)) -

In a major step toward helping marketers eliminate email bounces and optimize ROI, **DataCaptive** proudly announces the official launch of its **AI-enhanced Email Verifier Tool**, now available with **100 free trials each month – no credit card required**.

Built to support businesses of all sizes, the new [DataCaptive Email Verifier Tool](#) empowers users to clean, validate, and enrich their email lists **in real time or bulk**, ensuring **95%+ deliverability accuracy** and minimal list decay. Whether you're launching a campaign, nurturing leads, or preparing for outreach at scale—this tool is engineered to **maximize inbox placement and reduce wasted ad spend**.

*"The market is flooded with generic verification tools. What sets DataCaptive apart is the intelligence behind the tool—every verified contact is a step closer to real engagement,"* said **Rachel Simmons**, Product Lead at DataCaptive.

**Key Features:**

- Verify 10,000+ emails in one go
- Check syntax, domain, mailbox, and SMTP validity
- Identify spam traps, disposable, and role-based emails
- Easy integration with CRMs and marketing tools
- **Free 100 verification credits every month**

The Email Verifier is part of DataCaptive's growing suite of B2B marketing solutions, including **custom B2B contact lists, data enrichment, and targeted lead generation.**

Businesses looking to sharpen their email campaigns, cut bounce rates, and improve sender reputation now have a go-to solution that's **cost-effective, easy-to-use, and precise.**

**Start verifying smarter today:** [DataCaptive-Email Verifier](#)
