

Datascan's Winpharm Software Wins 2025 Best of Badges

Long Island, New York Jul 17, 2025 ([Issuewire.com](https://www.issuewire.com)) - Datascan is no stranger to accolades, but they still know how to take a compliment in style.

This year, their determination to produce a superior pharmacy software system has been recognized by the very best in tech.

Soft skills in the software industry aren't easy to come by, but as a small business committed to serving other small businesses, Datascan maintains meaningful, close relationships with clients and offers some of the best customer support in the industry. Datascan's Winpharm software systems take pharmacy management to the next level, making a complex array of available features easy to use, reliable, and effective, just like the independent pharmacies they serve.

As a result, this year Datascan was given several Best of Badges.

Gartner Digital Markets is an invaluable tool for discovering game-changing software and services and is used internationally by start-ups and industry leaders alike. This year, they've recognized Datascan's Winpharm software by awarding it exclusive badges based on real reviews and research. Gartner includes software vendor intermediaries Capterra, GetApp, and Software Advice—all of which awarded Winpharm coveted badges this year.

Capterra - Best Ease of Use, Best Value, 2025

Capterra provides businesses with extensive reviews, reports, and other sources of real-life information about enterprise software solutions across a variety of sectors. This includes non-incentivized, verified

reviews. Datascan has always made a point to keep software affordable.

GetApp—Best Functionality & Features, 2025

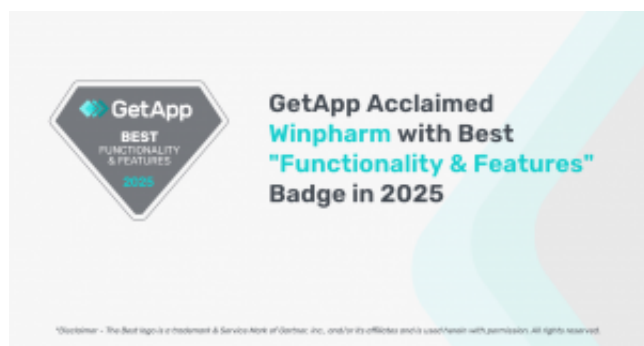

GetApp performs an exhaustive annual ranking for software solutions. By using exclusive product insights and proprietary data analysis, they provide lists of the very best software vendors tailored to unique end-user needs.

If you're familiar with Datascan, you know that Winpharm is packed with features. From [compounding](#) to claim processing to workflows, we've thought through every area of today's neighborhood pharmacies to make sure they have the tools they need.

That's why we've been winning awards and helping customers since 1981.

Software Advice - Best Customer Support, 2025

The awards speak for themselves. Datascan is committed to independent pharmacies and makes sure that clients know how to take advantage of the many software features that Winpharm offers. New clients are guided through every step of the conversion process to make sure their migration is successful and are offered intensive training so that the entire pharmacy team is up to speed and ready to impress. Software Advice uses globally sourced user reviews, buying trends, and honest feedback to recommend the very best software solutions for businesses.
