Ubud, Bali Jul 22, 2025 ([IssueWire.com](https://www.issuewire.com)) - New Age artist **Denis Yuirievich Maksimov** unveils his latest album, *The Music Bible*, a spiritually rich and emotionally charged project that channels love, healing, and unity. Inspired by personal transformation, the album reflects Denis' journey from the corporate world to a purpose-driven mission through sound.

Following his earlier releases—Mixtape *11:11* and *The Road to Liberation*—*The Music Bible* is the artist's most balanced work to date. With no collaborators or producers, Denis created each track himself, staying true to his mission of crafting music that heals and empowers.

"I started by creating a 'song of power' while living in Mexico," Denis says. "That music helped me shift from a business way to a unity mission journey. Music helps me heal myself and explore reality."

The album's lead single, "**Love**," captures the core of the project—offering listeners a meditative and heartfelt experience. It's not just music; it's an emotional support system in sonic form.
