

Deva E Launches CSIS, a New-Age Cybersecurity Firm Transforming India's Digital Defense

CSIS, founded by legal and political strategist Deva E, is set to revolutionize cybersecurity, digital forensics, and cybercrime response in India.

Hyderabad, Telangana Jul 25, 2025 ([IssueWire.com](https://www.issuewire.com)) - Marking a major milestone in India's journey toward digital resilience, **Deva E**, a nationally respected legal strategist, youth leader, and certified mediator, has officially launched **Cyber Security Intelligence Systems (CSIS)** — a Hyderabad-based cybersecurity and digital forensics firm focused on protecting India's digital infrastructure.

With decades of influence in law, politics, and public service, **Deva E now brings his leadership into the technology domain**, spearheading an organization that merges **cybersecurity, artificial intelligence, and legal intelligence** into one robust system.

"Our nation's security doesn't end at borders — it extends to bytes, data, and every citizen's digital identity. CSIS is my vision to protect that," said *Deva E, CEO & Founder of CSIS*.

CSIS will focus on:

- Enterprise & government cybersecurity
- AI-powered cyber threat monitoring
- Cybercrime investigation and reporting
- Training ethical hackers & forensic experts
- Digital privacy tools and awareness programs

Deva E is also the **Vice-Chairman of TPCC Legal Cell, Founder of The MEESAM**, and a **Certified Mediator with the Supreme Court and Telangana High Court**, continuing to inspire leadership in multiple arenas. His goal with CSIS is clear: **position India as a global leader in ethical cybersecurity** while nurturing homegrown talent.
