

DL Mining launches new AI cloud mining application, supports free mining of XRP and BTC

and promotes compliance development in accordance with the GENIUS Act

DL Mining

Stirling, Scotland Jul 19, 2025 ([Issuewire.com](https://www.issuewire.com)) - When US President Donald Trump officially signed the GENIUS Act and established the first federal stablecoin regulatory framework, compliant cloud mining service provider **DL Mining** announced the launch of a new [AI-driven free cloud mining application](#), which supports users to participate in mining through mainstream cryptocurrencies such as **XRP**, **BTC**, and **ETH**, and obtain daily stable income. This move not only complies with the regulatory trend of the crypto industry, but also provides investors with a more convenient passive income Channel.

Policy dividends promote the development of compliant mining

On July 18, the **GENIUS** Act officially came into effect. The bill clarifies the issuance and regulatory framework of stablecoins backed by the US dollar and authorizes the Federal Reserve to supervise compliant issuers. This policy is regarded as a major turning point in the US crypto market, providing the industry with a clearer compliance path and enhancing market confidence.

Alex Chen, COO of DL Mining, said:

"We believe that clear regulation is the cornerstone of the healthy development of the industry. Our AI

cloud mining application is designed around the three core elements of compliance, stability and decentralized financial growth, aiming to provide investors with a safe and efficient tool for income."

Product highlights AI intelligent scheduling, zero threshold, daily settlement income

DL Mining's new version of the cloud mining app has the following core advantages:

AI intelligent scheduling: The system automatically optimizes global computing resources to achieve efficient and low-cost mining.

Zero threshold participation No need to buy mining machines or technical knowledge, [register to get a \\$15 free computing power trial](#).

Automatic settlement of daily income: Support withdrawal at any time to achieve "holding currency appreciation".

The platform uses green mining farm computing resources, and users can enjoy professional-level mining income without hardware investment, truly realizing "cloud plug and play".

XRP hits a record high, mining becomes a new choice for stable income

At the same time as the GENIUS Act was passed, the price of **XRP** broke through US\$3.55, setting a record high. As the regulatory environment improves, more and more investors are turning to cloud mining as a long-term value-added strategy. According to ChainProof data, in the first two weeks of July, the number of **XRP** holders who chose cloud computing services increased by 31%, indicating that the market is shifting from short-term speculation to a stable income model.

Future plans: multi-currency mining & Web3 ecological integration

DL Mining revealed that it will launch the "**multi-currency combination mining**" function in the future, supporting users to flexibly configure mining strategies for assets such as **XRP, BTC, ETH**, and further optimize income. In addition, the platform will also integrate **Web3 wallets** and **DeFi protocols** to build a more open crypto asset value-added ecosystem.

About DL Mining

DL Mining was founded in 2014 and is headquartered in the UK. It is a compliant and [green AI cloud mining platform](#) with services covering more than 50 countries and regions around the world, supporting **XRP, BTC, ETH, DOGE** and other cryptocurrency mining.
