Philadelphia, Pennsylvania Jul 16, 2025 ([IssueWire.com](https://www.issuewire.com)) - DL Mining launches simple cloud mining service, bringing passive income, Bitcoin price rises

As Bitcoin surpasses \$110,000 again, [DL Mining](#) enables passive BTC income through hardware-free cloud mining services.

As the price of Bitcoin (BTC) surpasses \$110,000 and approaches all-time highs, investors are looking for ways to take advantage of this rally while escaping the complexity of traditional mining. Leading cloud mining platform DL Mining offers an easy-to-use and cost-effective solution that allows users to passively earn Bitcoin without any hardware or technical expertise.

The surge in Bitcoin prices is not only good news for traders, but also a game-changer for miners. As the price of BTC rises, so too will the profitability of mining, but this is only beneficial to those miners who can adapt. For those seeking passive income but unwilling to bear the high costs and technical barriers of traditional mining, DL Mining provides a simple, secure and completely legal solution.

Environmentally friendly mining: using renewable energy

What sets [DL Mining](#) apart is its commitment to sustainability. The company's data centers are powered by 100% clean energy, including hydro, wind, and solar. By reducing its reliance on fossil fuels, DL Mining is minimizing its carbon emissions and supporting the global transition to a greener blockchain economy.
