

# EH1-Infotech Cybersecurity Launches Cyber Risk Assessment Platform to Help CEOs Build Digital Trust

A breakthrough Cyber Risk Assessment platform giving CEOs real-time clarity, control, and confidence in their organization's cybersecurity — in just 15 minutes.

The image shows a promotional graphic for the EH1-Infotech Cybersecurity Cyber Risk Assessment Platform. On the left, the company logo is displayed above the text "Cyber Risk Assessment for CEOs". Below this, it states "Private. Judgment-Free. Strategic Clarity." and "Built on the Principles of Digital Dharma". A definition of Digital Dharma is provided: "Digital Dharma = the ethical duty to protect digital environments - with clarity, care, and long-term commitment." On the right, a screenshot of the platform's interface is shown. It features a "Logout" button, a confirmation message "✓ Cyber Risk Assessment Completed!", and a large gauge showing a "RISK SCORE 50" which is categorized as "HIGH RISK". Below the gauge, it states "Data Encrypted • Private Report • Secured by EH1-Infotech Cybersecurity". An "Interpretation" section notes "Major cybersecurity gaps. Immediate improvements are recommended." At the bottom, a "Risk Level Interpretation" table is visible.

| Score Range | Risk Level  | Meaning                                                           |
|-------------|-------------|-------------------------------------------------------------------|
| 0 - 80      | High Risk   | Major cybersecurity gaps. Immediate improvements are recommended. |
| 81 - 120    | Medium Risk | Moderate cybersecurity posture. Improvements are needed.          |
| 121 - 180   | Low Risk    | Strong cybersecurity posture. Keep improving.                     |

**Fazilka, Punjab Jul 8, 2025 ([Issuewire.com](https://www.issuewire.com))** - EH1-Infotech Cybersecurity Pvt. Ltd., an ISO-certified and Startup India-recognized company, proudly announces the launch of the **EH1 Cyber Risk Assessment Platform** — a **one-of-a-kind** platform designed specifically for CEOs and business leaders.

This **invite-only** platform helps leaders understand their organization's cyber risks in a simple, 15-minute platform access meeting — with clarity and no fear or technical confusion.

**Made for CEOs. Led by Cyber Leadership.**

*"Most CEOs feel overwhelmed by technical jargon or fear-based messaging. We created this platform to offer something different — a clear view of their real cyber risks."*

— **Dr. Sahil Baghla**, Founder & CEO, EH1-Infotech Cybersecurity Pvt. Ltd.

EH1-Infotech Cybersecurity Pvt. Ltd. was incorporated in April 2025 under the leadership of Dr. Sahil Baghla, a recognized cybersecurity consultant and trusted advisor to CEOs and organizations. He brings:

- Over 15 years of cybersecurity experience

- 10,000+ professionals trained
- 350+ workshops delivered across corporate, government, and education sectors
- Authorship of the cybersecurity books **Digital Cop** and **WordPress Security Secrets Revealed**

EH1-Infotech Cybersecurity is not a continuation of any past business by Dr. Sahil Baghla. It is a **new legal entity** with a new mission — built on real-world expertise, ethical values, and a core belief in **Digital Dharma** — the ethical duty to protect digital environments with clarity, care, and long-term commitment.

At EH1, cybersecurity goes beyond technology — it's about **protecting trust, acting responsibly, and creating clarity.**

**Private. Respectful. Built for Leaders.**

The EH1 Cyber Risk Assessment Platform offers:

- 🔒 **Complete privacy** – Your answers are never stored or shared
- 🔒 **Non-technical approach** – No IT background needed
- 🔒 **Judgment-free assessment** – Focused on awareness, not blame
- 🔒 **NDA available** – Full confidentiality assured

**In Just 15 Minutes, CEOs Receive:**

- A personalized cyber risk score
- A clear risk level (High / Medium / Low)
- Practical, easy-to-understand action steps

**Robust Framework – Internally Validated for Results**

The platform is a **one-of-a-kind cyber risk SaaS product** for CEOs and business leaders, inspired by global security standards and leading cybersecurity research. In internal testing, it demonstrated **over 93% effectiveness** in helping CEOs recognize and address critical gaps.

**Why CEOs Trust This Platform:**

- **Uncovers real-world issues** like forgotten ex-employee access, weak passwords, and missing multi-factor authentication (MFA)
- **Helps you take action** without feeling overwhelmed by technical details
- **Unlocks trusted solutions** including Employee Cybersecurity Enablement Program, VAPT (Penetration Testing), and Virtual CISO advisory

This tool bridges the gap between **leadership vision** and **cybersecurity action** — without the burden of audits or complex tech language.

This is **not an audit or scan**. It's a **leadership tool** that delivers visibility, direction, and confidence.

***“94% of breaches happen due to preventable flaws. A 15-minute access meeting today could prevent a costly crisis tomorrow.”***

— Dr. Sahil Baghla

## **EH1 – A Value-Driven Mission**

EH1 stands for:

- **Ethical practices**
- **Hardening digital infrastructure**
- **1 Goal:** To be the most trusted cybersecurity partner for CEOs

*“We don’t just secure systems — we protect trust.”*

— EH1 Leadership

EH1-Infotech Cybersecurity is a Private Limited company combining professional governance with deep care for **purpose-driven businesses worldwide**.

## **How to Access the Platform**

Leadership begins with awareness. Let's strengthen cyber resilience through meaningful, ongoing conversations.

The EH1 Cyber Risk Assessment Platform is **available by invitation only**. CEOs may request access through:

- **Website:** [cyberrisk.eh1infotech.com](http://cyberrisk.eh1infotech.com)
- **Email:** [info@eh1infotech.com](mailto:info@eh1infotech.com)
- **LinkedIn:**  
[linkedin.com/company/ehinfosec](https://www.linkedin.com/company/ehinfosec)  
[linkedin.com/in/sahilbsecurity](https://www.linkedin.com/in/sahilbsecurity)

**Note:** Platform access is granted following a one-on-one meeting (online or offline) with our cybersecurity team. NDA available upon request.

*The EH1 Cyber Risk Platform's methodology and scoring logic are proprietary. Full details may be shared selectively under NDA during access meetings, at the company's discretion.*

**About EH1-Infotech Cybersecurity Pvt. Ltd.**

EH1-Infotech Cybersecurity is an India-based cybersecurity company focused on building **digital trust for modern organizations**.

**Core Services** include:

- CEO Cyber Risk Assessments
- Virtual CISO Services
