

Evisco Ltd: Setting New Standards in Lubrication Through Quality and Eco-Innovation

Your Partner in High-Performance and Eco-Conscious Lubrication

Hong Kong, Hong Kong S.A.R. Jul 11, 2025 ([IssueWire.com](https://www.IssueWire.com)) - Evisco is a premium [lubricant manufacturer](#) headquartered in Hong Kong, established in 2025. The company specializes in developing and producing high-performance, environmentally friendly lubrication solutions for industrial and automotive applications. Evisco leverages its in-house R&D and manufacturing capabilities to deliver reliable and sustainable products tailored to global market needs.

1. Core Business & Product Lines

- Full Production Chain – Evisco operates its own facilities for formulation, blending, and packaging, ensuring rigorous quality control from raw materials to final product distribution.
- Automotive & Industrial Oils – The product range includes high-performance engine oils, hydraulic fluids, [gear oils](#), and more, designed for heavy-duty and precision environments.
- Hydraulic & Gear Solutions – Evisco offers [hydraulic oils](#) engineered for fluid-power systems and robust gear oils tailored for enclosed industrial gearboxes.
- Technical & Educational Resources – Through its “Basic Knowledge” and industry blogs, Evisco shares expert insights on lubricant applications and best practices.

2. Sustainability & Services

- **Eco-Friendly Focus** – Aiming to reduce environmental impact, Evisco emphasizes green additives and efficient fluid formulations that support equipment longevity and energy conservation.
- **After-Market Support** – Complementing its product portfolio, Evisco provides services such as lubricant selection guidance, lifecycle management, disposal advice, and post-sales technical support.

3. Key Strengths at a Glance

Strengths

- In-house R&D & Manufacturing
- Product Range
- Environmental Stewardship
- Customer Support

Highlights

- Ensures consistent quality, traceability, and innovation
- Covers engine oils, gear oils, and hydraulic fluids tailored for diverse operating conditions
- Focus on eco-friendly formulas and efficient usage to minimize waste
- Technical guidance, knowledge content, and lifecycle services enhance user experience

4. Notable Partnerships

Over the years, Evisco Ltd has earned the trust of some of the world's most recognized automotive and industrial brands. Through strategic collaborations, the company supports its partners with cutting-edge lubrication technologies that enhance performance, extend equipment life, and meet the highest environmental standards.

Evisco's key partnerships include:

- **Mercedes-Benz** – Supplying high-performance engine oils tailored for Mercedes-Benz's advanced powertrains, ensuring optimal efficiency and compliance with stringent emission regulations.
- **Ford** – Partnering to deliver versatile lubricants for both passenger and commercial vehicles, addressing the diverse needs of Ford's global operations.

- Volkswagen Group – Providing premium lubricants across multiple VW Group brands, including Audi and Škoda, supporting their worldwide manufacturing networks with solutions for modern engine technologies.
- MAN – Delivering robust gear oils and hydraulic fluids for MAN’s heavy-duty trucks and industrial machinery, designed to perform under extreme loads and harsh conditions.
- Audi – Formulating advanced engine oils for Audi’s high-performance models, balancing cutting-edge engineering with eco-conscious innovation.
- General Motors (GM) – Collaborating in North American and Asian markets to supply fuel-efficient lubrication solutions that contribute to GM’s sustainability goals.
- Škoda – Developing optimized lubricant blends for Škoda’s European lineup, enhancing engine protection and driving experience.
- Nissan – Supporting Nissan’s global production network with tailored hydraulic and engine oil solutions, improving manufacturing efficiency and product reliability.

These partnerships reflect Evisco’s commitment to quality, innovation, and environmental stewardship. By working closely with global industry leaders, Evisco continues to refine its product range and expand its impact, meeting the diverse demands of clients in both the automotive and industrial sectors.

[Evisco Ltd.](#) is becoming an emerging benchmark in the lubricants industry with its fully controlled technology system and green vision. From R&D and manufacturing to technical services and environmental partnerships, Evisco is building a smarter, greener, and more reliable lubrication ecosystem to provide customers with a comprehensive, high-quality lubrication experience.

If you are seeking a trusted partner for high-performance [lubrication solutions](#), Evisco Ltd is here to support your business. From industrial applications to automotive needs and eco-friendly services, we deliver expertise that drives efficiency and sustainability. Contact us today to discover customized lubrication solutions tailored to your needs, and let’s build a smarter, cleaner future together.
