The clinic provides a variety of services for beauty and skin care needs. From dermal fillers and lip fillers to skin boosters, laser hair removal, and other laser treatments, each procedure is completed with the latest techniques and quality products. The goal is always to provide long-lasting beautiful and natural-looking results. Clients trust Shabnam Medical Aesthetic because of its client first philosophy. Nurse Shabnam takes the time to know each person's skin type, concerns, and desired outcomes. Whether its reducing lines and wrinkles, adding volume to lips, evening skin tone, or removing unwanted hair, there is a unique solution for everyone. The clinic has rapidly become a highly-rated medical aesthetic clinic in Laval for a couple of reasons like the clinic's exceptionally high standards, and the honesty and transparency that patients feel when they visit with Nurse Shabnam. She believes that client education is a very important part of the treatment process and she educates clients about the procedures and treatments they are seeking. This way you can make well-informed decisions. She makes sure that you feel comfortable and confident throughout your entire aesthetic journey.

Shabnam Medical Aesthetic also uses the best equipment and the newest technologies to guarantee results that exceed patient expectations. For example, we use advanced laser machines that offer a variety of treatments, and are suitable for all skin types providing safe, gentle and effective care. For clients that are new to aesthetic medicine and are unsure what to expect, staff answers every question and explain each part of the process as they go through it.
