

Gee Power Kicks Off Euphoria 1.0

Gee Power set to perform his new single, "Capture My Soul" live and in-person.

Port Harcourt, Rivers Jul 20, 2025 ([IssueWire.com](http://www.IssueWire.com)) - Gee Power will be kicking off in this last quarter of the year, collaborating with some renowned artists from regions like Kaduna, Makurdi, and Calabar. Special guests from within the city of Port Harcourt and those from the United States have accepted the invitation to minister at Gee Power's first live musical event, "*Euphoria 1.0*," since he's made his appearance on the Christian music scene in 2015. While Gee Power is well-known for his talent and leadership in music and management, he has made up his mind to embrace his career as a gospel artist, exposing his music to millions around the world.

"Euphoria was derived from a place where I found myself suddenly happy. There was a turning point in my life when I realized that God had kept every promise to me. And each day since I remembered that I was in the place that God spoke about, I woke up with a burst of excitement and joy to see it through to the end of what he told me".

The excitement doesn't stop here. Gee Power has taken on a new sound in music. Initially embracing the Christian Rock genre, Gee Power shows off his talent with his new upcoming single "Capture My Soul" that will be dropping on the same day as Euphoria. Fans are expecting to hear Gee Power sing it first, live on August 3, 2025, in Port Harcourt, at the Blessings of Abraham Covenant Church, Rumuokrwushi, Port Harcourt.

"As I look back on how far God has brought me in just a matter of months, I consider all of the encounters that I have had throughout my journey, and I conclude that I have been captured by the love of the almighty father. So I had to tell the whole world that He "Captured My Soul". And most of this happened through encounters with others".
