

## GSTILL LTD Launches Streamlined GENIO Craft-Still Range Following 155 Global Installations

UK-based distillery equipment specialist unveils expanded product lineup, expert training service, and end-to-end support for craft spirit producers.

**Stoke on Trent, Staffordshire Dec 31, 2025 ([IssueWire.com](https://www.issuewire.com))** - GSTILL LTD, the UK's premier manufacturer of GENIO distillery stills, today announced the launch of its expanded craft-distilling equipment range. Trusted by over 155 UK & European installations, the new lineup spans test units (15 L) to full-scale commercial stills (5,000 L), ideal for startups and established whisky, gin, vodka, and

rum producers.

GSTILL's advanced GENIO designs deliver superior spirit quality, precise control, and outstanding production efficiency. In addition to equipment upgrades, GSTILL now offers full-service support: expert consultation, professional installation, and custom training packages from its Stoke-on-Trent showroom and training center.

"Based on over 155 installations in the UK and Europe, our customers consistently report higher yields and better spirit character," said Alex Rackovs, Manager, Evangelist and Ambassador of GSTILL LTD. "Our full-service model lets producers move from test batch to commercial scale with confidence and minimal downtime."

Distillery clients benefit from:

- Access to real-time equipment demos at a full-range showroom,
- End-to-end project management and installation,
- Bespoke training to elevate spirit quality and consistency,
- Ongoing technical support and parts service.

GSTILL LTD continues to expand its global reach and support network. Upcoming open-house events in Stoke-on-Trent will allow visiting producers to trial GENIO systems, meet engineering teams, and explore installation finance options.
