

How Moovick Platform Became Europe's First AI-Powered Moving & Home Services Platform

Finding movers near you shouldn't feel like assembling IKEA furniture without instructions.

Munich, Bavaria Jul 18, 2025 ([Issuewire.com](https://www.issuewire.com)) - Whether you're planning a full-scale relocation, moving across borders, or just need a handyman for home projects, the logistics involved are often outdated, fragmented, and stressful.

That's exactly what [Moovick](#), a growing European **startup**, set out to solve — and with the help of **AI**,

it's changing the game.

The First AI-Driven Moving & Logistics Platform in Europe

Moovick is Europe's **first AI-powered moving platform**, connecting people with trusted **moving companies**, **handymen**, and **home renovation professionals** — all in one place.

Our smart algorithm matches users with the most suitable **movers**, based on timing, location, budget, and the complexity of the move. Whether you're moving within the city or relocating to another country, Moovick simplifies the **logistics** process and brings the right services to your fingertips.

What Makes Moovick Different?

We're not just another **moving company directory**. Moovick acts as an all-in-one **moving and home services platform**, offering:

- Instant quotes from **local movers near you**
- Verified professionals for **relocation services**
- Access to **logistics experts** for large or complex moves
- Reliable **handymen** and **home renovation** specialists
- AI-powered recommendations to help you choose the best fit

Our platform supports everything from packing and moving, to setting up your new place with the right **home improvement services**.

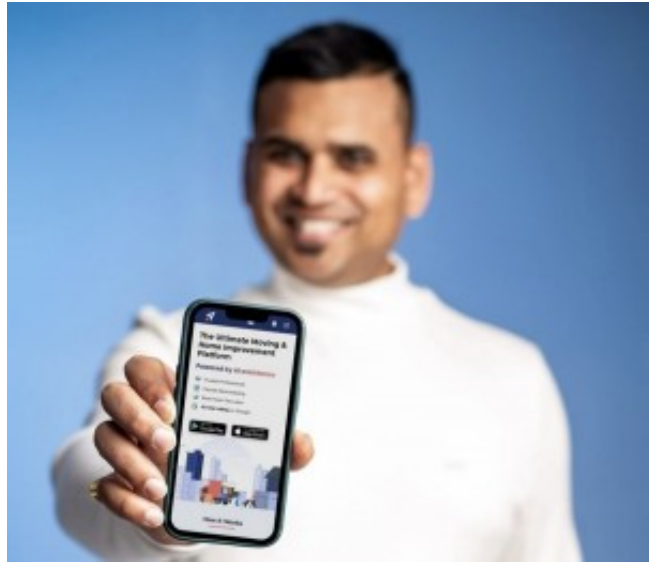

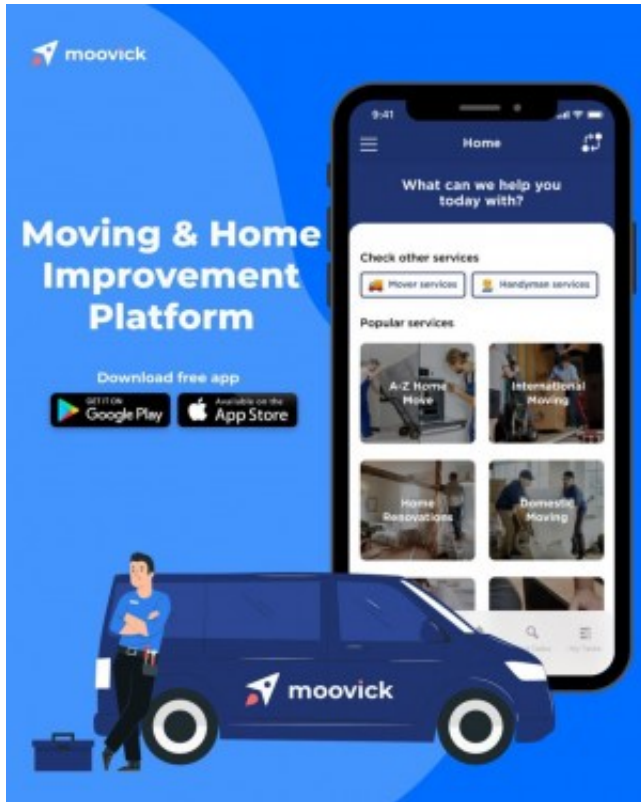

From Local Moves to International Relocation

Whether you're relocating across Berlin, Amsterdam, or Munich, or moving internationally for work or study, Moovick makes the process seamless. We support both **individuals** and **companies** with relocation — streamlining **logistics** and reducing planning headaches.

Startups, expats, and growing families all use Moovick to manage their **home moves** and **household projects** with less stress and more clarity. [Moving services in Germany and Netherlands | Moovick](#)

? What's Next?

Moovick is not just building a platform — we're building the future of **moving and logistics services** in Europe. With a strong focus on **AI**, customer trust, and operational transparency, we aim to lead the shift toward smart, tech-enabled relocation.
