

Hyderabad's Youngest Managing Director Takes Charge at CSIS

M Mahir Hussain, age 21, appointed MD at Cyber Security Intelligence Systems, leading India's next-gen cyber defense initiatives.

Hyderabad, Telangana Jul 25, 2025 ([IssueWire.com](https://www.issuewire.com)) - In a remarkable milestone for Telangana and the nation's cyber security ecosystem, **M Mahir Hussain**, aged 21, has officially taken charge as the **Managing Director of Cyber Security Intelligence Systems (CSIS)** — an advanced institution based in Hyderabad, committed to national cyber defense, intelligence analysis, digital surveillance, and ethical hacking operations.

CSIS plays a vital role in securing India's digital infrastructure, offering solutions in cyber intelligence, incident response, digital forensics, and national-level cyber awareness initiatives. Functioning with a mission-oriented framework, CSIS operates in close alignment with modern security needs, government standards, and strategic protocols.

A globally certified ethical hacker, **Mahir** holds professional credentials from prestigious international institutions including the **University of London**, **University of California**, and others. Known for his sharp technical acumen and leadership qualities, his appointment marks a new chapter of youth-led excellence in India's cyber landscape.

The appointment was facilitated by **Mr. DEVA E**, Chief Executive Officer of CSIS, who recognized Mahir's talent and dedication early on. In his first official address, Mahir expressed deep gratitude:

"This is more than just a professional journey. Mr. DEVA has stood by me like a brother — his trust and mentorship have made this moment possible. I owe this honor and responsibility to his unwavering support."

Though not biological siblings, the bond between DEVA E and Mahir is often described as one of true brotherhood — rooted in trust, commitment, and a shared vision to serve the nation through digital resilience.

As Managing Director, Mahir is focused on scaling CSIS operations, fostering cyber awareness across educational and government institutions, and innovating national-level intelligence tools to counter emerging digital threats.

Cyber Security Intelligence Systems (CSIS) continues to set new benchmarks in cyber safety, emerging as a trusted institution in protecting the digital sovereignty of the country.
