

Kor Beauty redefines skincare through nature-powered innovation.

The brand's plant-based, gender-inclusive skincare line sets new norms for cleanliness, efficacy, and luxury.

Ahmedabad, Gujarat Apr 17, 2026 ([Issuewire.com](https://www.issuewire.com)) - [Kor Beauty](https://www.korbeauty.com) is creating waves in the skincare business, which is traditionally dominated by harsh chemicals and one-size-fits-all products. Kor Beauty, inspired by the healing power of botanicals such as cactus extract, Chinese peony, and Aquacacteen, provides a carefully chosen selection of skincare products for all skin types, tones, and

genders.

"Our mission has always been simple—to make skincare that truly cares for your skin without compromising your values," a Kor Beauty spokesperson stated. "Every product is meticulously formulated to hydrate, protect, and restore the skin using clean ingredients that actually work."

The [Hydra Cleanse Cleanser](#) and [Cacti Tonic Potion Toner](#) are two of the brand's flagship products, both of which are intended to provide apparent benefits while retaining skin integrity. Kor Beauty is more than simply a skincare brand; it's a conscious movement toward healthier skin and a healthier planet. It promises to be silicone-free, paraben-free, and sulphate-free.

Kor Beauty products are now accessible online at www.korbeauty.com, offering skincare enthusiasts worldwide access to formulae that are both delicate and effective.
