

OTAP Launches IT Services Offering Catalogue to Expand Cloud Migration Solutions for Financial and Non-Financial Clients

Sandweiler, Luxembourg Jul 3, 2025 ([IssueWire.com](https://www.issuewire.com)) - OTAP Launches IT Services Offering Catalogue to Expand Cloud Migration Solutions for Financial and Non-Financial Clients Sandweiler, Luxembourg, [Date, 2025] — OTAP, a provider specializing in banking implementation services, is excited to announce the launch of its IT Services Offering Catalogue, now available on the OTAP website. Broadening its focus to deliver cloud services for both financial and non-financial mid-market to enterprise organizations, the catalogue offers specialized migration and managed services for Microsoft 365, AWS, and Azure, ensuring secure, compliant, and efficient transitions to cloud platforms. The IT Services Offering Catalogue addresses the evolving needs of organizations undergoing digital transformation, mergers, acquisitions, or divestitures. Building on OTAP's deep expertise in banking implementation services, the catalogue supports on-premises Active Directory environments, hybrid identity solutions, and tenant-to-tenant migrations, delivering tailored solutions for industries including finance, healthcare, legal, public sector, and more. Key Features of the IT Services Offering Catalogue Include:

- **Comprehensive Migration Solutions:** End-to-end services covering discovery, assessment, identity migration, Exchange, SharePoint, OneDrive, Microsoft Teams, and post-migration support.
- **Expanded Industry Focus:** Tailored migrations for financial institutions and flexible cloud solutions for non-financial organizations adopting cloud-first or hybrid strategies.
- **Advanced Tooling:** Proprietary tools, BitTitan MigrationWiz, ShareGate, and Microsoft-native solutions for secure, efficient migrations.
- **Robust Security and Compliance:** Configurations for Microsoft Defender, Purview, and Intune to meet regulatory requirements across industries.
- **User-Centric Support:** Extensive end-user training, change management, and 30–90 days of hypercare support to drive adoption and ensure stability.

“OTAP's expertise in banking implementation services, combined with our expanded focus on cloud solutions, positions us to deliver unparalleled value to both financial and non-financial clients,” said Cary, [Spokesperson Title] at OTAP. “Our IT Services Offering Catalogue provides boutique, high-touch solutions to meet the unique needs of each client, ensuring seamless and secure digital transformation.” The catalogue is now accessible at [www.otap-projects.com/cloud-services], providing detailed insights into service categories, deliverables, and advanced tooling, including Azure AD Connect, PowerShell automation, and BitTitan MigrationWiz.
